Continuous Carbonization in Glover West Vertical Retorts

presents wonderful earning possibilities. A study of the earning sheets of companies operating Glover West benches establish records for economy. Continuous feed direct from coal bunkers; largest gas yield per ton of coal, and on given area; constant illuminating and calorific value and uniform composition of gas; entire absence of smoke, dust and steam nuisance; utilization of heat from residual coke; great flexibility of output by varying rate of travel of coal through retorts; perfectly applicable to small, medium and large plants.

Welsbach Gas Mantle and Lamp Factory—Gloucester, N. J.

Capacity, 220,000 gas mantles ; 25,000 gas lamps per day.

Gas Mantle Lighting In War Time

*is a source of profit to the gas company,
a direct benefit to the consumer—
and a help to the government.*

Gas mantle lights are a source of fair and helpful profit to the gas company in these times of stress and abnormal conditions. They keep open one avenue of new business extension which is a benefit to all concerned.

The consumer profits by the adoption of modern gas mantle lamps in the reduction of his lighting bills. He is benefited by the use of a more powerful, a steadier light which takes the strain out of seeing and aids general health by relief of the nervous strain of insufficient illumination. He also gains by the decorative value and convenience of modern Welsbach Gas Lamps.

Gas mantle lighting by its lower gas consumption lessens the load of the gas plant—a highly important consideration in these days of shortage in gas-making materials. Through its saving in gas, it saves coal and oil and thereby serves in lessening the demands on transportation and labor.

Welsbach Company

Manufacturers of high grade gas mantles, lamps and fixtures

Gloucester,

New Jersey

PREFACE

Brown's Directory of American Gas Companies, 31st Annual Edition.

(How to use BROWN'S DIRECTORY to secure complete and full information respecting the companies reported therein.)

The statistics are ALPHABETICALLY arranged by STATES and CITIES, and classified in the following order:

Manufactured (or Artificial) gas companies, including:		Total Number in This Issue
Coal-gas plants		281
Water-gas plants		477
Oil-gas plants		71
Mixed coal and water gas		162
Mixed water gas and oil gas		2
Mixed water gas and coke-oven gas		5
Mixed coal gas and oil gas		2
By-product coke-oven plants		54
Wood gas		1
Distributing plants (gas purchased)		86
Plants under construction (process unknown)		5
South American plants (process unknown)		18
Total artificial plants		1,164
		of which 39 are municipal plants
Natural gas companies	745, including	14 municipal plants
Acetylene town plants	120, including	24 municipal plants
Gasoline town plants	55, including	32 municipal plants
Oil producers	179	
Oil refiners	215	
Parent or operating companies	183	
Public Service Commissions	45	

Total companies reported..... 2,706, including 109 municipal plants

APPENDIX, containing (1) financial data of 326 companies; (2) officers, directors and committees of gas associations; (3) alphabetical list of gas association members, with their company and association affiliations.

The railroads and steamboat lines serving each city, as well as express companies which deliver at such points, precede each company's report.

A COMPANY-INDEX, to be found in back section, facilitates the use of the book for reference purposes. For the convenience of those users of the directory who, in certain cases, may not know from what central plant a particular city or town, about which he seeks information, is supplied a CITY or TOWN INDEX is inserted after the company index. Explanations of the abbreviations of names of railroad and steamboat-lines and express-companies will be found immediately preceding these indexes.

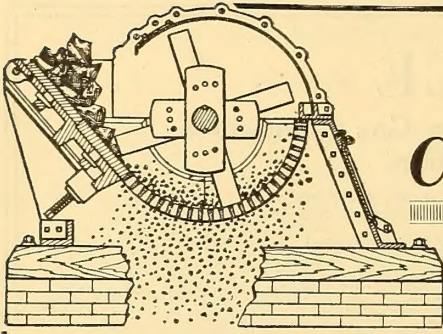

Those using this work, who may not readily find what they seek, should consult "Index to Contents," which will be found facing advertising-page VI, front section. To determine whether a city or town is being supplied with gas, consult alphabetical list in "City or Town Index" under name of town desired, and note from what city the gas-supply to that town is derived; then for statistics refer to the latter town, under State in which the town is situated, for detailed data.

Users will bear in mind that numerous changes are constantly occurring in the gas-business of the country. Supplying-companies change from artificial to natural product, and vice versa. Therefore, it is not to be assumed that a company, believed to be supplying natural gas, if not found under that head, will not be found in artificial department.

With continued assurances of appreciation for the helpful co-operation extended, and without which this work could not be published, I remain,

New York, June, 1918.

E. C. BROWN.

WILLIAMS COAL CRUSHERS

WILLIAMS COAL CRUSHERS are used for preparing coal for the stokers or chain grates, taking run of mine or lump coal and reducing same to $1\frac{1}{2}$ in., $1\frac{1}{4}$ in., $\frac{3}{4}$ in., and under, with the minimum of fine dust which is objectionable. They are also used extensively in coke oven work, preparing the coal to a fineness of 85 to 90% through $\frac{1}{8}$ in., general by-product oven specifications, or somewhat coarser for the ordinary bee hive ovens. Every gas plant should have one of these crushers for preparing their coal for various purposes. Catalog No. 3 describes these machines in detail. General specifications given below.

SPECIFICATIONS REGULAR CRUSHER

WILLIAMS COKE CRUSHERS

These coke crushers are admirably suited for reducing the coke after it comes from the ovens, crushing the same to sizes desired, with the least degradation possible. Capacities to suit requirements. Catalog No. 3X describes these machines and also gives specifications of the several sizes.

G. V. Electrics

FOR GAS COMPANY SERVICE

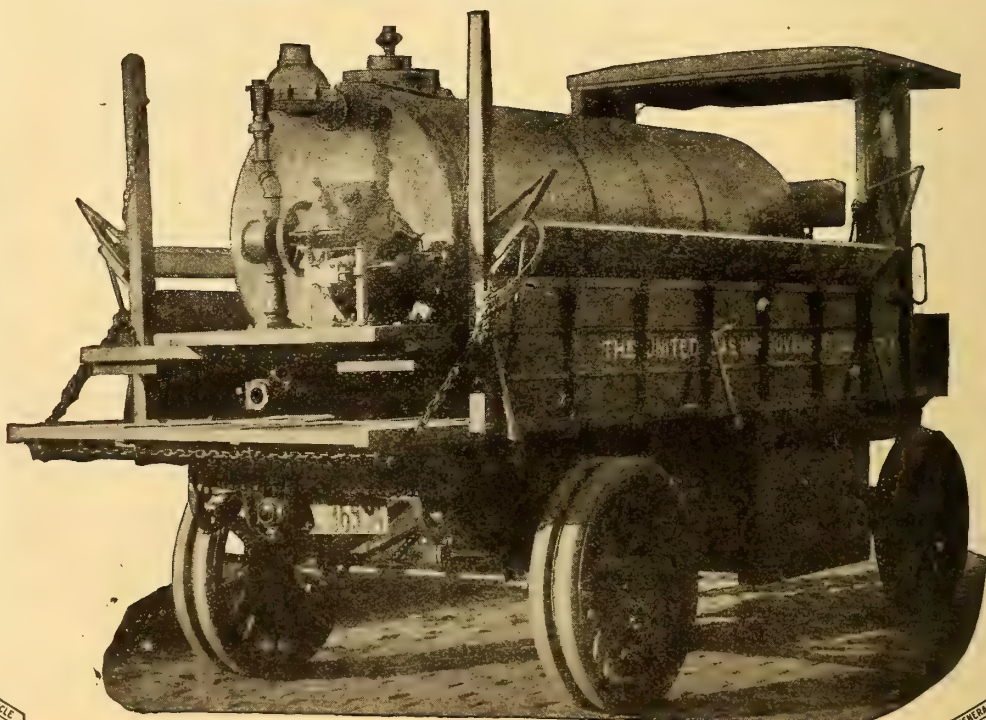

A wide variety of special adaptations of G. V. Electrics has been made for gas company service, including every department from pumping drips and carrying heavy cast iron pipe,—to range and appliance delivery,—and emergency work.

We have statistics covering comparative cost of operation in all parts of the country. Write for this data,—and for names of large gas companies now using G. V. Trucks.

GENERAL VEHICLE COMPANY, INC.

Established 1901

General Office and Factory: Long Island City, N. Y.

GAS HOLDERS STORAGE TANKS

SECTIONAL PIPE COVERING

(Compiled by the Continental Supply Co.)

Fire Felt Covering is made of fibrous asbestos in size to fit $\frac{1}{2}$ to 16-in. pipe. Thickness, 1 to 3 inches; jacketed with canvas and held in place with metal bands.

Asbestocel Fire Proof Covering is constructed of successive layers of plain corrugated asbestos paper; it is made to fit $\frac{1}{2}$ to 16-in. pipe and in thicknesses of $\frac{1}{2}$ to 3 in., jacketed with canvas and held in place with metal bands.

Asbestos Moulded Covering in sizes to fit $\frac{1}{2}$ to 12-in. pipe; with canvas jacket and lap to be pasted over ends; held in place with metal bands.

Magnesia Covering is composed of 85 per cent pure carbonate of magnesium, combined with asbestos fibre, and formed into shape under hydraulic pressure; made to fit $\frac{1}{2}$ to 14-in. pipe and in thicknesses of 1 to 3 in. Jacketed with canvas, and held in place with metal bands.

Mineral Wool Covering, made of best grade of rock wool.

Air cell: Made from the same material as asbestocel, but with corrugations running lengthwise; it is made to fit $\frac{1}{2}$ to 16-in. pipe and in thicknesses of $\frac{1}{2}$ to 2 in. Neatly finished with canvas and bands.

Vitribestos: is a sectional Vitrified Air Cell Covering. Can be made and applied without any inflammable outer covering. Furnished to fit $\frac{1}{2}$ to 12-in. pipe, canvased and with bands.

Standard Express: Composed of $\frac{3}{8}$ -in. asbestos felt and $\frac{5}{8}$ -in. corrugated wool felt; Adapted for surfaces, subject to vibration. Furnished with canvas jacket and brass bands.

Eureka: Made of $\frac{1}{4}$ -in. asbestos felt on inside of section and the balance ($\frac{3}{4}$ -in.) of alternate layers of asbestos and wool felt; finished with canvas jacket with lap and metal bands.

National Wood Felt Covering is made of corrugated wool felt, with an interlining of three layers of asbestos felt, stitched together with steel wire; furnished without canvas jacket, unless so ordered.

Champion Wool Felt Covering, for low pressure work, made of corrugated wool felt, $\frac{5}{8}$ -in. thick with one layer of asbestos; strong sheeting jacket with lap to be pasted over ends; held in place with metal bands.

Aqua Wool Felt Covering, for hot water pipes, made of corrugated wool felt $\frac{3}{8}$ -in. thick with one layer of asbestos paper.

Zero: To prevent freezing of cold water pipes. Composed of corrugated wool felt $\frac{3}{8}$ -in. thick with interlining $\frac{3}{4}$ -in. hair felt. Furnished with canvas and metal bands.

GAS PIPE

Cast Iron Pipe
Wrought Pipe

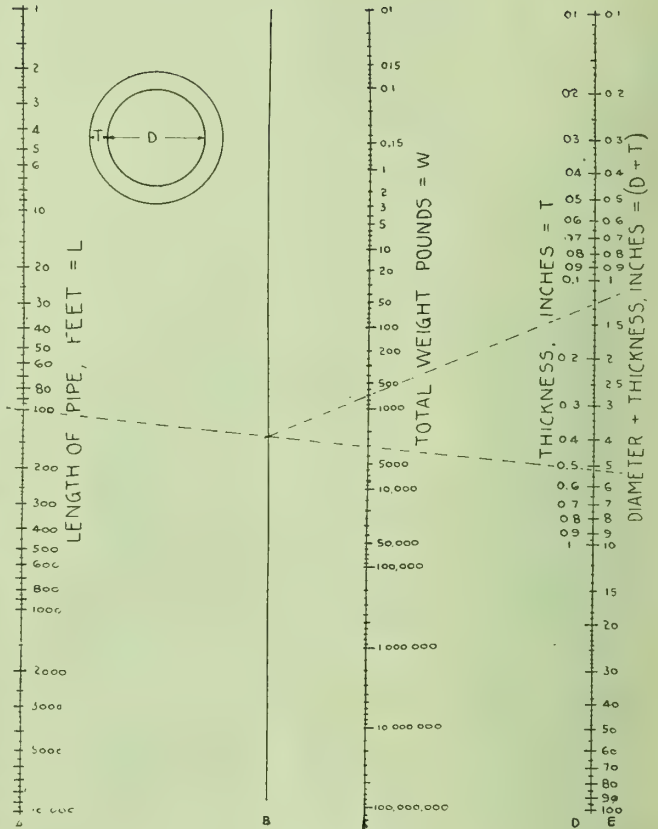

THE WEIGHT OF PIPE

By W. F. Schaphorst, in the Gas Age, Jan. 15, 1917

Since there is so little difference in the weight of wrought iron and wrought steel pipe this chart may be used for either. It is based on 0.283 lb. per cu. in., or 490 lb. per cu. ft. The chart must not be used for calculating cast iron pipe, however, without remembering that the final result must be multiplied by 0.92. That is, a cast iron pipe weighs only 92 per cent as much as a wrought iron or mild steel pipe of the same dimensions.

Example: What is the weight of a wrought iron pipe line 100 ft. long, 5 in. internal diameter and $\frac{1}{8}$ inch thick.

Run a straight line from the 100 (column A) to the sum of the diameter and thickness, 5.125 in. (column E) and locate the intersection with column B. From that point of intersection now run over to the thickness, 0.125 in. (column D) and the answer is found to be 700 lb. in column C. If the pipe were cast iron the weight would be $700 \times 0.92 = 644$ lb.

Graphic Calculation, Weight of Pipe

WEIGHTS OF PIPE METALS

(National Tube Co.)

Metal	Per cubic inch	Metal	Per cubic inch
Wrought steel	0.2833	Wrought aluminum	0.097
Wrought iron	0.260	Cast aluminum	0.092
Wrought copper	0.320	Lead	0.411
Wrought brass	3.303	Tin	0.267
Wrought nickel	0.313

HOW TO SPECIFY PIPE

If you want genuine wrought iron full weight guaranteed pipe.

ALL genuine wrought iron pipe is "wrought pipe." But all "wrought pipe" is not **genuine wrought iron**.

If you ask for bids and your specifications simply read "genuine wrought iron," "wrought iron" or "wrought pipe" you will not get Byers. The processes and materials employed in the manufacture of Byers pipe are such that it is impossible to sell it at as low a price as steel or cheap wrought iron pipe containing steel scrap. Also, many of the cheaper grades of pipe are as much as 15% under weight, while Byers is guaranteed to be full weight within 2½%.

In order to insure getting full weight genuine wrought iron pipe the following condensed specification may be used. If there is any doubt that pipe furnished on this specification is full weight and **genuine wrought iron**, a sample may be sent to any testing laboratory or to us and the nature of the material can be easily determined.

SPECIFICATIONS

All pipe shall be hand-puddled genuine wrought iron, manufactured exclusively from pig iron refined in a puddling furnace, rolled into muck bar, cut, piled and rolled into skelp without the use of foreign scrap of any kind.

A variation in weight of each length not exceeding 5% above and 2½% below full standard weight is permissible.

Couplings must be made from same quality iron as the pipe.

Manufacturer's name or trade mark (as well as year of manufacture) must be rolled in the metal of the pipe every few feet.

Copies of complete specifications for genuine wrought iron pipe will be furnished on request.

Flexible as a Giant

500 feet of

“NATIONAL” ROTARY

**Wonderful Experience at Ada Bell Oil Company Well No. 2
Hunters Lease, Batson, Texas**

“This well was 2,000 feet deep, when they commenced to pull out the pipe to change the bit. They had all the pipe out of the ground except 26 lengths when the gas began to show up. They screwed the swivel in the pipe to try and hold the pressure down, but the gas got the best of them and blew the pipe completely out of the well **WITHOUT MAKING A SIGN OF A BREAK IN A SINGLE JOINT OF THE 26 LENGTHS.**

“The swivel on top of the pipe struck the ground about 75 or 80 feet from the bottom of the derrick. The rest of the pipe continued to elbow right on through the side of the derrick, making a loop, or, in other words, just like cracking a whip. The bit landing farthest from the derrick was in the neighborhood of 350 feet from the swivel. This is the most marvelous thing that I have ever seen in the oil fields, and has caused considerable talk among oil drillers in South Texas Oil fields.”

(Extract from letter describing the picture shown.)

Whiplash

4-Inch

PIPE *Blown Out of the Well!*

¶ You've read the story. You've looked at the picture. Now think over the significance of this "NATIONAL" performance.

¶ In one word it means **QUALITY**. Quality of material—Quality that is shown in the marvelous flexibility of the wrought steel in this pipe, and the unexcelled tensile strength in every inch of it. Note this—after this racking test there wasn't a flaw in the 500 feet of this "NATIONAL" Rotary Pipe.

¶ "NATIONAL" Quality is not chance.—it is a regular part of every inch of the pipe. It will pay you to get "NATIONAL" pipe on account of this Quality.

¶ Years and years may pass on your work before the "NATIONAL" pipe will ever be put to a test like this—if it ever is. But there's wonderful satisfaction—and profit—in having a pipe that can stand up successfully when the test comes.

¶ And this pipe is "NATIONAL"—the pipe that withstands the tensile and twisting and corrosive tests in ordinary and extraordinary service—and proves it can. In whatever field you use pipe, "NATIONAL" will meet your requirements.

¶ To readily identify "NATIONAL" material and as protection to manufacturer and consumer alike, the practice of National Tube Company is to roll in raised letters of good size on each few feet of every length of welded pipe the name "NATIONAL" (except on the smaller butt-weld sizes, on which this is not mechanically feasible on these smaller butt-weld sizes the name "NATIONAL" appears on the metal tag attached to each bundle of pipe).

¶ When writing specifications or ordering tubular goods, al-

LOOK
FOR THE
MARK

NATIONAL

Name Rolled in
Raised Letters on
National Tube
Company Pipe

ways specify "NATIONAL" pipe, and identify as indicated.

¶ In addition, all sizes of "NATIONAL" welded pipe four in. and under are subjected to a roll-knibbling process known as Spellerizing to lessen the tendency to **warpage** corrosion, especially in the form of pitting. This Spellerizing process is peculiar to "NATIONAL" pipe, to which process National Tube Company has exclusive rights.

¶ "NATIONAL" pipe was awarded the **GRAND PRIZE** (highest possible award) at Panama Pacific International Exposition, 1915.

SAFEGUARD YOUR INVESTMENT

Underneath the ground, where there are numberless destructive influences constantly at work and where long life is most essential because of the difficulty and expense of tearing up and replacing pavements—there

CAST IRON PIPE

furnishes a perpetual safeguard for gas-main investment.

With a continuous service record of over 250 years, Cast Iron Pipe has become the standard for gas and water mains in all principal cities throughout the world.

The use of other kinds of pipe has proven an unfortunate and expensive experiment.

CHANGES IN WEIGHT OR VOLUME OF SLACK COAL BY WETTING AND SHAKING

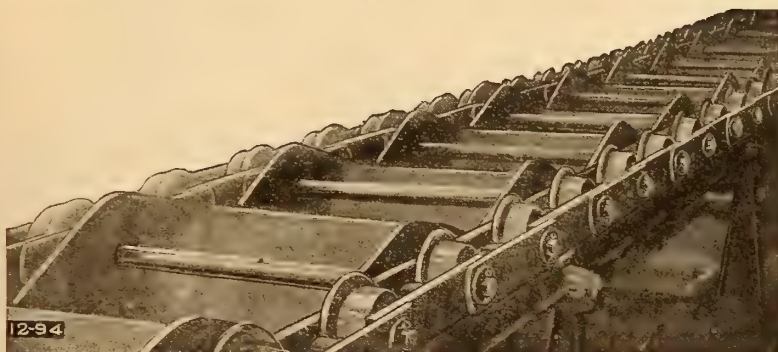

(From Technical Paper 184, U. S. Bureau of Mines)

Date of test 1915-1916	Dec. 13	Dec. 16	Jan. 20	Jan. 21	Jan. 22	Jan. 23
Weight of 8 cu. ft. of coal in original condition (pounds)	393	372	388
Weight of 8 cu. ft. of same coal after wetting (pounds)	419	393	416	392	388	388
Settling when shaken (inches)	1	1½	1½	1½
Total weight of original 8 cu. ft. of coal, moist condition (pounds)	426	408	421	396	391	388
Moisture in coal in original condition (per cent)	2.5	2.13	3.26
Moisture in wet coal (per cent)	9.6	10.76	10.8	5.20	3.99	3.26
Weight of coal per cu. ft. in original condition (pounds)	49.1	46.5	48.5
Weight of moist coal per cu. ft. (pounds)	52.4	49.1	52.0	49.0	48.5	48.5
Increase in weight of unit volume of coal through wetting (per cent) (a)	6.72	7.74	7.22	1.03	0	0
Volume of original 8 cu. ft. of coal in moist condition (cu. ft.)	8.134	8.306	8.10	8.082	8.062	8.00
Increase in volume from increase in moisture (per cent)	1.67	3.8	1.24	1.02	0.77	0
Reduction in volume from shaking (per cent)	4.2	6.25	6.25	6.25

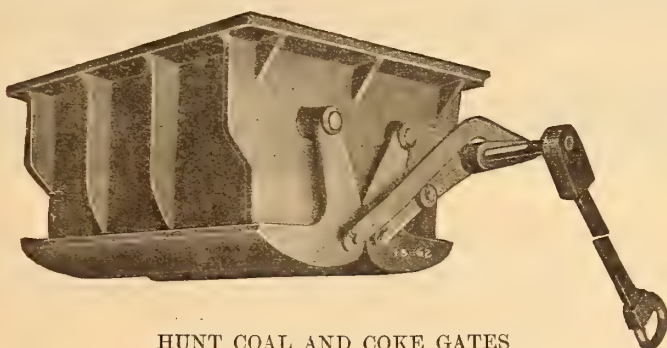

The slack coal was wet on Jan. 20th, and exposed to the atmosphere. The volume obtained in (a) was by shoveling the coal loosely into a box measuring 2 feet by 2 feet by 2 feet and leveling off with a straight-edge. The coal was from the upper and lower Freeport seams of a mine in Westmoreland County, Pa. The results in the table seem to justify the following conclusions:

1. Of two samples of any coal that are composed of the same proportions of pieces of different sizes, the sample having the higher moisture content will usually weight the more per cubic foot.
2. The sample of higher moisture content will usually occupy more space for the same number of pounds of (dry) coal than will a sample of lower moisture content. However, the increase in volume for the wet coal is not as great proportionately as is the increase in weight per cubic foot.
3. Coal shoveled loosely into a container will settle appreciably if the container is shaken, and the weight per cubic foot will be correspondingly increased.
4. Slack coal composed of a mixture of the smaller pieces up to and including nut size weighs more than screened nut coal.

Handling Coal and Coke

Brownhoist Locomotive Crane

Each crane will handle 70 to 90 tons of coal per hour or 40 to 60 tons of coke; and handle it from or to cars, storage and bins. The crane travels on a standard railroad track, and is equipped with a 35 to 50 ft. boom and 27 to 54 cu. ft. bucket. It is steam or electrically operated, and controlled by one man. It does the work of 30 to 40 men. You can also do the switching of cars and miscellaneous hoisting work around the plant. Brownhoist Cranes and buckets are built in various sizes and types.

Less Breakage Than When Handled By Hand

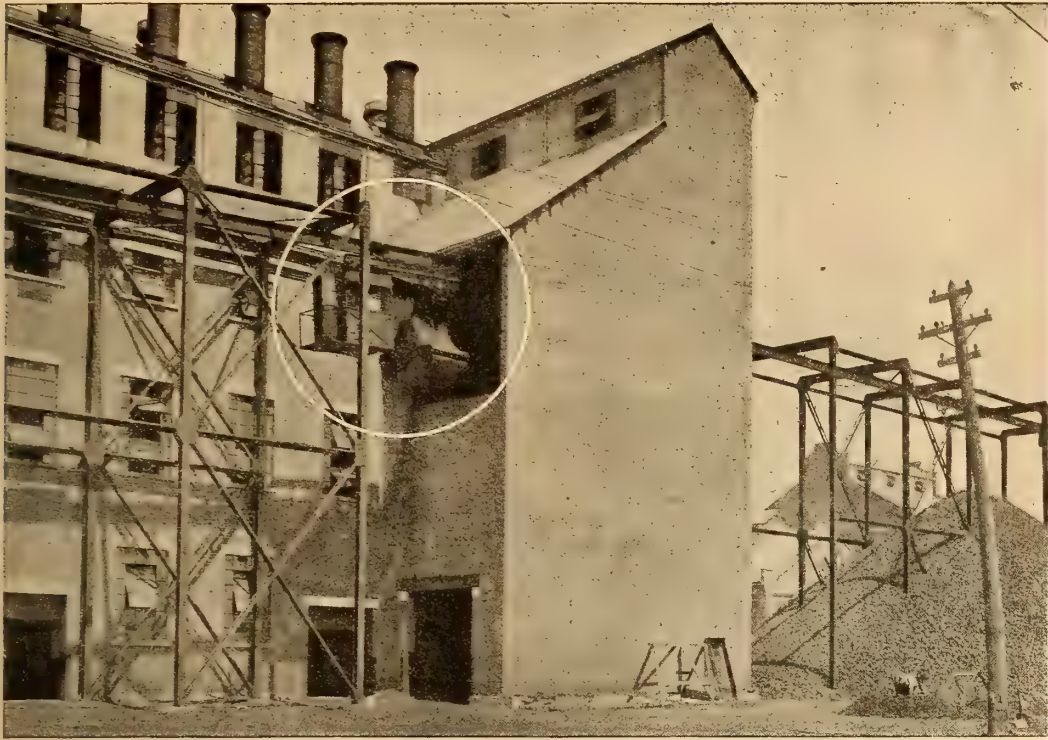

Actual working records prove that the Brownhoist Crane with Brownhoist Bucket handles coal and coke with less breakage than occurs when using hand shovelers. We can refer you to gas companies, furnaces, fuel dealers, etc., where this is being proved every day.

BROWNHOIST

Handling Coal and Coke

Brownhoist Monorail Trolley

The trolley travels on the lower flange of I Beam track, carrying its Brownhoist Bucket to any part of the building or yard. It reaches any floor of the building by means of the elevator. The Brownhoist Trolley with Bucket provides for coal and coke storage, and handles the coal and coke in and out of the buildings.

Less Breakage Than When Handled By Hand

This Brownhoist Trolley equipped with the Brownhoist Bucket will handle the coal and coke with less breakage than when shoveled by hand. This equipment has been in use for years.

in Gas Plants**

Push Button Box showing
Up, Down, and Stop
Control Buttons.

A Real Dollars and Cents Saving

You can have full automatic control in your plant and avoid accidents and delays by installing the *Otis Automatic Skip Hoist*. Three buttons control all operations. A momentary push of the up button raises, dumps and returns the bucket. Anyone in the plant can operate it. It cannot be mismanaged. Used in many up-to-date plants where it is saving dollars as well as lives.

Write for details and performance records.

THE GAS AGE

98% Efficient

A CAREFUL comparison of the paid subscribers to THE GAS AGE with the artificial gas companies who furnished data for the 1917 Edition of BROWN'S DIRECTORY OF AMERICAN GAS COMPANIES discloses the following facts:

Output (cu. ft. per year)

THE GAS AGE full paid subscribers have a combined output of.....	216,284,426,027	98%
Non-subscribers	4,729,543,550	

Capital (Stocks and Bonds issued)

THE GAS AGE full paid subscribers have a capital of	\$3,274,630,109.00	95%
Non-subscribers	191,731,446.00	

Population Supplied

THE GAS AGE full paid subscribers supply a population of	38,523,771	96%
Non-subscribers	2,145,491	

Consumers' Meters

THE GAS AGE full paid subscribers meters in service	7,737,060	97%
Non-subscribers	237,989	

Street Mains (in miles)

THE GAS AGE full paid subscribers street mains	58,039.86	94%
Non-subscribers	4,006.78	

The subscribers to THE GAS AGE (and they all pay \$3.00 per year for it) are the men who buy or direct the buying of over \$100,000,000 of

WRITE FOR RECENT LITERATURE

Economy in Investment Economy in Maintenance

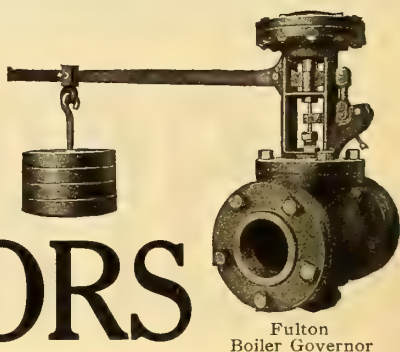

Lower material cost. Less equipment and equipment overhead necessary. Not necessary to carry as large a stock of idle meters. Lower labor costs, because a man can repair six Sprague meters to one tin meter; therefore only one-sixth of the overhead created by employing labor. Complete repairs can be made in thirty to forty minutes. No soldering. No tinsmith's services necessary. Any man with mechanical skill can handle repair work.

Let us send a case of five Sprague No. 1-A Meters for you to test.

BOOKS FOR GAS MEN

Instructions to Gas

Appliance Salesmen

By J. E. BULLARD

A salesman's manual of modern selling methods selected with the sale of gas appliances ever in mind. This book is the first to place at the command of the gas company salesmen and sales manager a concise and practical treatment of the methods that have built up the prestige of many of the most successful commercial men in the field.

The book is written for the salesman who has not had the advantages of previous contact with the most recent developments of systematic salesmanship, and provides a groundwork of theory to support the greater detail of the particular plans recommended for gas company practice.

Chapter Headings

I. Preparation. II. Straight Canvassing. III. Soliciting. IV. Personal Suggestions. V. General Instructions. VI. Scientific Sales Management.

128 pages, 5x7, 21 illustrations and 9 tables. \$1.00 net, postpaid.

Gas Appliance and Display Demonstration

By J. E. BULLARD

A practical description and discussion of the most successful methods of display and demonstration of gas appliances at the present time, with incisive analyses of the principles on which success depends; the wealth of illustrations, showing the good, with suggestions for adaptation to local conditions—and the less successful with indications of the elements to be avoided—give the book a day-in and day-out value not often attained.

The customer's point of view is studied from every angle. Window displays and arrangement of demonstration floors are considered from the standpoint of making sales and creating confidence and good will. Special demonstrations and campaigns are treated comprehensively, as well as the problems involved in gas company advertising.

Chapter Headings

I. General Theory of Presentation. II. Gas Offices and Branch Stores. III. Gas Office Display Rooms (Domestic). IV. Gas Office Display Rooms (Industrial). V. Window Displays. VI. Exhibitions and Special Displays.

VII. Demonstration of Cooking Appliances. VIII. Demonstration of Specialties. IX. Demonstration of Industrial Appliances. X. Advertising. XI. Interrelation of Departments. XII. Appendix containing Bibliography. Very complete index.

448 pages, 5x7, 213 illustrations. \$2.00 net, postpaid.

Chemical Control of Gas Manufacture

By WALTER M. RUSSELL

—and—

FRANK WILLS

A handbook describing the chemical and physical tests used in the control of gas manufacture, and showing how the interpretation of the results of these tests can be used to perfect the operation, and increase the efficiency of gas manufacturing and by-product plants. The book deals with American practice in a condensed, simplified and comprehensive manner.

The authors have had wide practical and successful experience in both small and large companies, and are enabled to treat the subject with the authority of complete knowledge of prevailing conditions in the field. While much information on the subject has appeared in the technical Press, and in the publications of the technical societies, this is the first time that there has been made available a manual including the necessary working procedure in one volume.

The book is divided into two sections. Part 1 deals with the practical application of chemical control to every affected part of the plant, giving details for carrying out and interpreting tests. Part 2 gives elementary instruction in chemical theory necessary to the work of Part 1. The book will enable a superintendent, foreman, or intelligent workman to go out into the plant and secure and use the benefits of scientific chemical control of gas manufacturing processes.

Chapter Headings

Part One: I. General. II. The Retort House. III. Ammonia Recovery. IV. The Condenser Room. V. The Purifying Plant. VI. Calorimetry and Photometry. VII. Chemical Tests for Purity. VIII. Gas Analysis. IX. The Water Gas Machine. X. The Laboratory and Its Equipment. XI. Physical Control.

Part Two: XII. Elementary Chemistry. XIII. Chemical Tests. XIV. Analytical Chemistry.

152 pages, 5x7, 48 illustrations, 21 tables. \$1.50, postpaid.

THE HUMPHREY Radiantfire

A RADIANT GAS HEATER FOR THE OPEN FIREPLACE

THE HUMPHREY RADIANTFIRE is an entirely new departure in gas heating—a handsome and appropriate heater that sets back into the fireplace and throws out a flood of radiant heat and firelight—a perfect open fire with all the fascination of the wood blaze. The gas burns through lace-like porcelain radiants which become immediately incandescent. It burns without smell or noise and may be turned down low.

The RADIANTFIRE is made in styles and finishes to suit any room. It has been passed by the National Board of Fire Underwriters and adopted by leading gas companies throughout the country.

THE GAS AGE

Established 1873 Published Semi-monthly

The Gas Age is the recognized authority in the gas field. Gas manufacture (and manufacturing apparatus), gas distribution and gas sales; financial, legal, commission and patent information; commercial development, advertising, demonstrating and selling of heavy and light gas-consuming appliances for heating in home, office and factory, lighting in home, office, factory and street; association news and convention reports; selection and training of employes; and general news of the gas industry are covered in the sixty-odd pages of each issue.

The liveliest, freshest news of the activities of all departments of artificial and natural gas companies in the United States and England and on the European continent, is gathered and selected to furnish the maximum of interesting, practical and helpful information in the most conveniently accessible form.

The problems and the accomplishments of the manufacturers of gas making and distribution apparatus are studied with a view of giving gas companies and manufacturers the benefit of the latest developments. Likewise, new products of the manufacturers of gas-consuming appliances are followed closely and placed before the public at the earliest opportunity.

The paid subscribers of The Gas Age serve 94 per cent of the gas using population, sell 98 per cent of the gas, own 93 per cent of the street mains and 96 per cent of the meters in the manufactured gas field. A high percentage of the natural gas field is also reached. Such a covering power is phenomenal, and is unequaled by any trade publication, so far as we know, with the possible exception of one journal in an entirely different field.

This makes The Gas Age pre-eminent as an advertising medium for the manufacturers who sell any type of gas making, distribution or consuming apparatus and materials.

Subscription Rate: United States

16	8.0	1.0400	33	16.5	1.0825			

For each deg. Twaddell of strength of ammoniacal liquor two ounces of sulphuric acid (specific gravity 1.845) is required to neutralize the ammonia. Each ounce strength equals 0.347 ounces of ammonia per gallon of liquor. One deg. Twaddell equals 350 grains of water.

NEW BOOK FREE "CALORIMETRY"

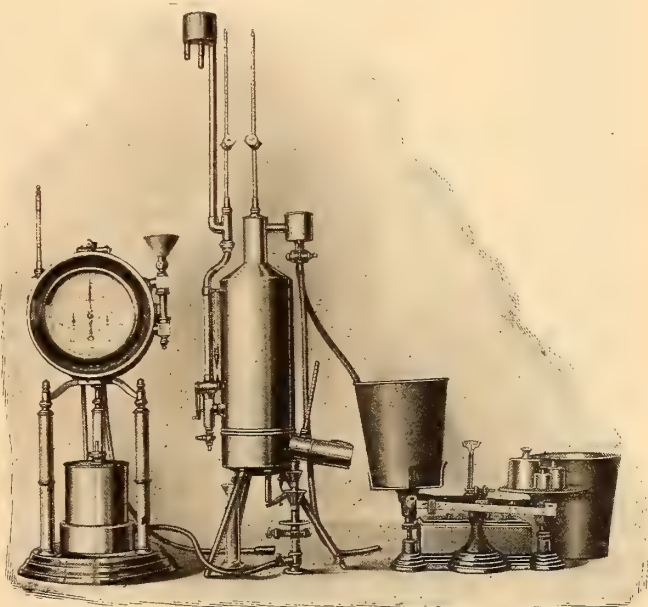

All you have to do is to ask for this book. It will be sent to you upon request without charge

Test Your Gas

Absolutely necessary if you wish to give best service and save trouble.

This Calorimeter is SIMPLE TO OPERATE—ABSOLUTELY ACCURATE. No expert operator required.

Calorimetry is displacing photometry. The increasing use of gas fuel burning appliances requires that you be constantly provided with proper apparatus to enable you to test the thermal value of your gas.

THE HINMAN-JUNKERS' CALORIMETER

The Perfected Hinman-Junkers' Calorimeter

embodies all the improvements suggested by the Committee on Calorimetry of the American Gas Institute.

Declared by the N. Y. Public Service Commission to show an efficiency of 99.8 per cent.

NEW FEATURES

Can be taken apart and all parts accessible—Three-way cock on outlet permits continuous operation—Water thermometers close together and on same level—Telescopic sights—Burner stands upright—Meter mounted on stand and governor placed beneath meter. Meter rings bell automatically on revolution of large pointer.

ARE YOU GUARDING ? YOUR COAL PILE ?

Precision Patent Automatic CO₂MBUSTION RECORDER

It is a scientific fact that the fuel loss increases as percentage of CO₂ decreases. Thus 5 per cent CO₂ equals a loss of 35 per cent of fuel, while 12 per cent CO₂ equals a loss of 15 per cent of fuel, so that if a 5 per cent CO₂ result can be converted into a 12 per cent CO₂ result, the saving is 35-15 of 20 per cent of the fuel. Apply these everyday figures to a coal bill of \$5,000 per annum. They show a possibility, nay a practical certainty, of saving \$1,000 per annum if a CO₂MBUSTION RECORDER is used and worked up to. This is a hard fact, and does not admit of argument. The smaller the percentage of CO₂ the greater the monetary loss in fuel. One pound of coal burned to CO₂ yields three times the heat that is produced if the coal is only burned to CO.

The Book Tells You All.

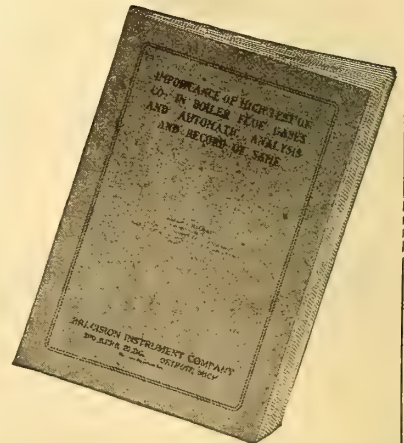

Precision Instrument Co.
ENGINEERS

Detroit

Michigan

Do you, according to the fuel you use, so thoroughly extract all the heat that you get 19 per cent or 16½ per cent of CO₂? It may be taken for granted that in nine cases out of ten where the CO₂MBUSTION RECORDER is not used, these figures are not being even approached, and it is manifest that the lower the CO₂ figures the greater the waste.

Everything
for
Oil and Gas
Wells

Branch Stores
in all
Oil Fields

75,000,000 cubic feet per day

We manufacture equipment of every description for drilling or boring deep wells for oil, gas, water, or for any purpose, anywhere, in any formation, to any depth.

We are the oldest and largest manufacturers of well drilling plant in the world, and our experience is world-wide. Our Factories cover 74 acres, and our Branch Stores are located in all the prominent oil fields.

We can furnish everything or anything used in drilling by the American Cable System, the Rotary System, the Canadian System, the Combination System, the Hydraulic Circulating System, the Stove Pipe and Mud Scur System, or Portable Drilling Machines.

CHART FOR ESTIMATING THE CALORIFIC VALUE OF COAL

By W. F. SCHAPHORST, in the Gas Age, Jan. 1, 1917

An interesting card distributed by Peale, Peacock & Kerr, of New York, entitled, "To Calculate British Thermal Units." In this calculation Dulong's formula is not used. Oxygen and hydrogen are not even mentioned. The calculation is based on the proximate analysis of the coal.

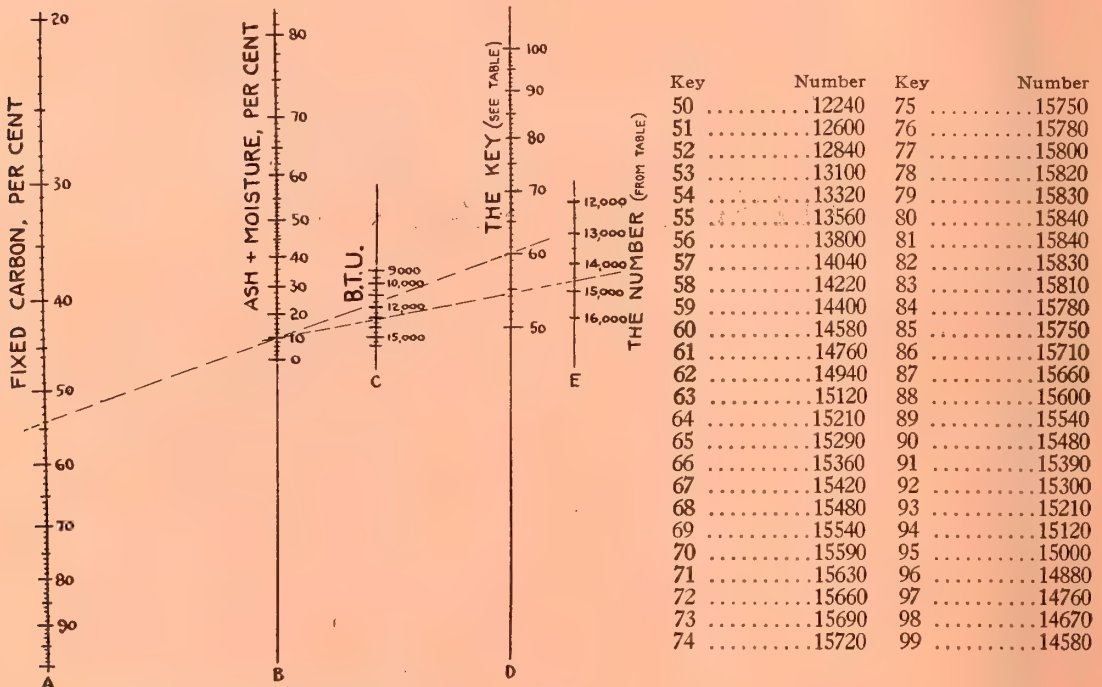

In order to use this chart, it is necessary to know the percentages of three constituents: (1) fixed carbon, (2) ash, and (3) moisture.

Run a straight line from the fixed carbon (column A) to the sum of moisture and ash (column B) and locate the key in column D. Using this key you now refer to the table and find the number corresponding with the key. Locate this number in column E and connect it with the sum of moisture and ash (which has already been located in column B) and the

intersection with column C gives the heat value of the coal.

Example: Let us take a sample of coal showing 54 per cent fixed carbon (column A), and the sum of moisture and ash amounting to 10 per cent (column B). The extended dotted line gives us 60 (column D) as the key. Referring to the table we find the corresponding number to be 14,580. Locating that number as closely as possible on column E we run a line over to the 10 (column B) and the intersection with column C shows the heat value of the coal to be very close to 13,100 B.t.u. The dotted lines indicate the two positions of the straightedge necessary for the determination of heat value.

It is stated on the card published by Peale, Peacock & Kerr that this method is accurate within 100 B.t.u.

Foamite

SYSTEM FOR EXTINGUISHING OIL FIRES

Now protects thousands of Oil Storage Tanks and has practically superseded all other systems.

Several of the United States Naval Fuel-Oil Stations have FOAMITE protection.

No Tank protected by the FOAMITE SYSTEM has ever been lost! Its universal adoption by the leading Producers and Refiners has cut down substantially the enormous losses due to inadequate fire protection.

Send us full particulars about your risk. Let us give you specifications and prices covering a FOAMITE SYSTEM that will **surely** protect you against fire losses, and reduce your insurance rates.

FOAMITE should not be confused with imitations and infringements bearing somewhat similar names.

FOAMITE 3-gallon Fire-pail.

Utilizes Same Solutions as the FOAMITE SYSTEM.

Astonishingly efficient, especially on oil, paint, or grease. Produces 24 gallons of fire-smothering foam—enough to blanket a space of 50 square feet.

FOAMITE 3-gallon Hand Extinguisher.

Utilizes Same System as the FOAMITE SYSTEM.

Made of copper, finely finished and polished. It throws a steady, easily handled $\frac{1}{4}$ -inch stream,

and generates 20 gallons of FOAMITE fire-smothering foam that blankets the worst blaze, puts it out and makes reignition difficult. Its capacity is equivalent, by actual test, to eight ordinary extinguishers.

FOAMITE 40-gallon Chemical Fire Engine Utilizes Same Solutions as the FOAMITE SYSTEM.

Produces 320 gallons of the same fire-smothering foam that is utilized by the FOAMITE SYSTEM for extinguishing oil fires. Easily handled by one man.

Write for circulars describing the unequaled effectiveness of FOAMITE Fire Extinguishers, Fire Pails, and Fire Engines.

GAS OIL

BEFORE you renew your contract for gas oil, let us quote you prices and tell you about deliveries and our service in general.

Tide Water gas oil has a sulphur content of less than three-tenths of one per cent—something which very few oil refiners can equal. It is also free from sediment.

Tide Water policy

Paraffine base crude is used exclusively by the Tide Water Oil Company.

It is the rule of this Company never to lower the standard of the products by forcing the yield from crude; quality is always first.

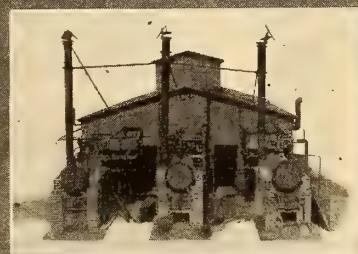

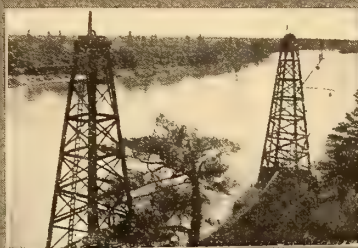

Each of our 150 products is the best that a choice of raw material, years of experience, and scientific research can produce.

Write us for prices and deliveries and tell us when your present contract expires.

Max. day's send out, 15,000 c. f.

Street mains, approx., 5 miles.

Street main press., max., 6.2 in.; min., 3.3 in.

Annual sales, approx., 2,950,000 c. f.

Gas unaccounted for, 15 p. c.

Pop of city, est., 700; of dist. supplied, 700.

No. of consumers, 113.

No. meters, reg., 111; prepay., 12.

Price of gas: Light and Fuel, net, \$1.25. Consumers of over 5,000 c. f. per month, \$1.

RELIABLE

The most perfect combination of beautiful appearance, self-maintaining durability, all around efficiency and quick salability ever effected in gas range construction. Write for catalog.

RANGES

RELIABLE STOVE COMPANY, Div. Am. Stove Co., CLEVELAND, O.

No. public lamps, 5 (Humphrey). Price per year, \$30.

Contract includes repairs, care, lighting and extinguishing.

No. hours each lamp is lighted per year, 3,600. Gas appliances in use: Ranges, 90; heaters, 12; water heaters, 20.

No. commercial gas arc lamps, 20. Supplies Fowler.

Pacific Gas and Electric Co., Fresno District.

RRs.: A. T. & S. F.; So. Pac. Ex.: W. F.

(For detailed financial information, see Pacific Gas & Electric Co., under "Appendix.")

Vice-president and gen. mgr., John A. Britton. Secretary, D. H. Foote.

Treasurer, A. F. Hockenbeamer.

Purchasing agent, J. H. Hunt.

District manager, M. L. Neely.

Chief engineer, gas dept., E. C. Jones.

Process manufacture, Oil gas (Jones).

Calorific value, 592 B.t.u.

Annual production, 317,345,200 c. f.

Gas holder capacity, 375,000 c. f.

Max. day's send out, 1,345,500 c. f.

Miles of mains, approximate: H. P. distribution, 24.51 miles; L. P. distribution, 81.74 miles; total mains, 106.25 miles.

Street main pressures: H. P., max., 35 lbs.; min., 10 lbs. L. P., average, 7 in.

Annual sales, approx., 254,686,100 c. f.

Gas unaccounted for, 19.1 p. c.

Pop. city (est.), 48,867.

No. consumers and meters, 8,266.

Price gas: Light and Fuel, \$1.10 to \$1 net; \$1.25 gross.

No. commercial gas arc lamps, 1,114.

Supplies Fresno.

Southern Counties Gas Co., Fullerton.

(See report in Natural Gas Dept.)

Coast Counties Gas and Electric Co., Gilroy.

RRs.: So. Pac. Ex.: W. F.

(For capitalization and officers, see "Appendix.")

Operate municipal gas works under lease.

Dist. manager, E. J. Sherman.

Process manufacture: Lowe (crude oil).

Price of oil per bbl., delivered, \$1.09.

Candle-power, 18. Calorific value, 600 B.t.u.

Annual production, 12,220,000 c. f.

Gas holder capacity, 38,000 c. f.

Max. day's send out, 43,000 c. f.

Miles of mains, approx., 8.

Street main pressures, max., 5.5 in.; min., 3.5 in.

Annual sales, approx., 9,400,000 c. f.

Gas unaccounted for, 24 p. c.

Pop. city, supplied, 2,437.

No. consumers, 459.

No. meters, reg., 471.

Price gas: Light and Fuel, 1st 2,000 c. f., \$1.60 and \$1.50; 2,100-5,000 c. f., \$1.35-\$1.25; 5,100-25,000 c. f., \$1.10-\$1; over 25,000 c. f., 90c.-80c.

No. gas ranges, 298; heaters, 75; water heaters, 143.

No. commercial gas arc lamps, 96.

Supplies Gilroy.

ELECTRICAL DEPARTMENT.

(Operated from transmission system of company. See Santa Cruz.)

System operated: Arc., D. C.; incand., A. C.; 60 cycle, 3 phase.

Voltage: Incand., 110; power, 110, 220, 4,000.

Price current per kw. hr., gross, 9c. to 3c.,

sliding scale: First 100 kw., 9c.-8c.; next

100 kw., 8c.-7c.; next 200 kw., 7c.-6c.;

next 200 kw., 6c.-5c.; next 400 kw., 5c.-4c.;

over 1,000 kw., 4c.-3c. Min. chg., \$1.

Output of sub-station, kw. for year, 1,160,000.

Supplies Gilroy, Morgan Hill and adjacent country.

Southern Counties Gas Company of California, Glendora.

(See report under Covina, in Artificial gas department.)

Pacific Gas and Electric Co., Grass Valley Dist.

(See report under Nevada City District.)

Hanford Gas and Power Co., Hanford.

gross, \$1.50 net; 2,100 to 5,000, \$1.35
gross, \$1.25 net; 5,100 to 25,000, \$1.10-
\$1; over 25,000, 90c.-80c. Min. chg., 50c.
No. gas ranges, 266; heaters, 112; water heat-
ers, 184.
Supplies Hollister.

ELECTRICAL DEPARTMENT.

(Business conducted under same name as gas
company.)
Operated from transmission system of com-
pany. See Santa Cruz.

System: A. C., 3 phase, 60 cycle.
Voltage, incand., 110; power, 110-220-4,000.
No. public arcs, 30; lighted by Fruend sched-
ule.
No. public incand., 40; price per year, \$24.
Price current, per kw. hr., 9c., sliding scale
to 3c. (See Gilroy, Cal.)
Power price, 5c. to 1.5c.
Output of station, kw. hrs., total for year
1,835,000.
Supplies Hollister and adjacent country.

Jackson Gas Light Co., Jackson.

RR.: (Martell) I. & E. Ex.: W. F.

Capital stock, \$50,000.
Owner, B. E. Letang.
Process manufacture, Coal.
Price coal per ton, delivered, \$10.81.
Candle-power, 16.
Miles of mains, approx., 6.
Annual sales, approx., 2,000,000 c. f.
Pop. city supplied, 2,035.
No. meters, 175.
Price gas: Light and Fuel, \$2.50.
Gas stoves in use, 20.
Supplies Jackson.
(No 1918 report.)

Southern Counties Gas Co., Long Beach.

RRs.: S. P., L. A. & S. L.; So. Pac. Ex.: W. F.

(Successor to Long Beach Consolidated Gas
Co.)
(For capitalization, see "Appendix.")
Process manufacture, Crude Oil.
Candle-power, 21.
Gas holder capacity, 900,000 c. f.
Storage capacity, 530,000 c. f.
Miles of mains, approx., 155.
Annual sales, approx., 260,152,150 c. f.
Pop. dist. supplied, 35,000; of city, 17,809.
No. consumers, approx., 12,867.
Price gas: Light and fuel, \$1.
Ranges and hot plates, 10,023.
No. commercial gas arc lamps, 156.
Supplies Long Beach, Alamitos, Seal Beach.
(Company is reserving artificial gas plant in
operating condition, but natural gas was
supplied in 1917.)

Economic Gas Co., Los Angeles.

(See report in Natural Gas Department.)

Los Angeles Gas and Electric Corporation, Los Angeles.

CALORIMETERS

American Meter Company

561 W. 47th St., New York, N. Y.

The American-Junkers' Calorimeter has been greatly improved and accessories added until it has been made what we consider the most advanced type of instrument for this purpose now in use. This is confirmed by the numerous orders we are constantly receiving for it from all parts of the country and that it has been furnished to all the large syndicates, State Public Utilities Commissions and the City Gas Inspectors, the Public Utilities Commission at Washington, D. C., the U. S. Bureau of Standards, and the U. S. Department of War.

Sec'y and treas., R. S. Masson.
Gen'l manager, R. S. Masson.
Purchasing agent, G. E. Tench.
Engineer, L. D. Miller.

Price gas: 1st 500 c. f., \$1; next 4,500 c. f., \$1.70; next 10,000 c. f., \$1.45; over 15,000 c. f., \$1.20.
No. commercial gas arc lamps, 14.
Supplies Red Bluff.

ELECTRICAL DEPARTMENT.

Sub-stations are operated at the following points: Anderson, Arbuckle, Balaklala, Butte City, Chico, Coram, Corning, Cottonwood, De La Mar, Germantown, Gardella, Hamilton, Heroult on the Pitt, Ingot, Iron Mountain, Jacinto, Kennett, Keswick, Lewiston, Mammoth Mine, Manton, Maxwell, Old Diggings, Orland, Palo Cedro, Princeton, Red Bluff, Redding, Rice, Vina, Washington, Williams, Wil-lows, etc.
No. public arcs (Red Bluff), 50; 660 watt.
Price per year, \$32.88.
No. commercial incand. lamps, approx., 7,000.
Price current per kw. hr., 7c. to 3c. Cooking and heating, 3c. to 1.5c.
Output of station, kw. hrs., total for year, 1,132,490.

Northern California Power Co., Consol., Redding.

Principal office, San Francisco, Cal.
(For RR's., capital, officers, etc., see same company reported under Red Bluff.)
Process manufacture, Lowe (crude oil—Jones machine).
Price oil per gal., delivered, 5c.
Candle-power, 22.
Gas holder capacity, 40,000 c. f.
Max. day's send out, 25,000 c. f.
Miles of mains, approx., 6.
Street main pressures, max., 10 in.; min., 6 in.
Annual sales, approx., 8,875,700 c. f.
Gas unaccounted for, 13.3 p. c.
Pop. of city, 3,572; of dist. supplied, 3,000.
No. consumers, 350.
No. meters, reg., 347; prepay., 100.
Price gas: Light and fuel (see Red Bluff).
Supplies Redding.

Pacific Gas and Electric Co., Redwood Dist.

RRs.: So. Pac. Ex.: W. F.

(For detailed financial information, see "Appendix.")

Vice-president and gen. mgr., John A. Britton.
Secretary, D. H. Foote.
Treasurer, A. F. Hockenbeamer.
Purchasing agent, J. H. Hunt.
Chief engineer, E. C. Jones.
Manager, E. W. Florence.
Process manufacture, Oil gas (Jones).
Gas supplied from San Francisco station.
Gas holder capacity, 500,000 c. f.
Trans. mains, 39.95 miles; press., 95 to 40 lbs.
High pressure, mains, 137.39 miles; pressure, 95 to 40 lbs.
Miles of low pressure, mains, 10.08.
Street mains pressure, 4 in.
Annual sales, approx., 235,476,900 c. f.
Pop. of district supplied, 38,775.
No. consumers, 5,440. No. meters, 5,549.
Price gas: Light and Fuel, \$1.25 to \$1.
No. commercial gas arc lamps, 70.
Supplies Redwood City, San Mateo, Burlingame, Palo Alto, Colma, San Bruno, Belmont, Menlo Park, Millbrae, Hillsborough, South San Francisco, Daly City, Stanford University, Atherton and Lomita Park.

ELECTRICAL DEPARTMENT

System: A. C., 60 cycles, 3 phase, 115 and 230 volts.
City lighting: Public incand., 1,833; size 40 to 250 watts.
Commercial lighting: No. incand., 138,363.
Price current per kw. hr., residence lighting, 8c. to 5c.; commercial lighting, 6c. to 3c.
Price current per kw. hr., 4c. to .65c.
Generating power used, Water and Steam, rated 270,643 (System).

Vice-president, C. B. Strohn.

Secretary, Fred Bennitt.

Assistant treasurers, Helen O'Meara and C. B. Strohn.

General manager, ————

Gas purchased from Coal Products Mfg. Co.
 Candle-power, 16.

Calorific value, 600 B. t. u.

Miles of mains, 1,030.

Annual sales, approx., 1,489,998,200 c. f.

Pop. dist. supplied, 210,000; of Aurora, 29,807; Joliet, 34,670; Elgin, 25,976.

No. consumers and meters, 48,506.

Price gas: Light and Fuel, gross, 95c.; net, 90c.
 Ranges in use, 37,908.

Supplies Joliet, Plainfield, Lockport, Lemont, Aurora, North Aurora, Montgomery, Lisle, Naperville, Batavia, Geneva, St. Charles, Elgin, South Elgin, West Dundee, East Dundee, Carpentersville, Marengo, Woodstock, Algonquin, Cary, Crystal Lake, Ridgefield, Harvard, La Grange, La Grange Park, Brookfield, Congress Park, Hollywood, Western Springs, Hinsdale, Fullersburg, East Grove, Downers Grove, Wheaton, Glen Ellyn, Lombard, Elmhurst, Winfield, West Chicago, Oswego, Huntley, Union, Rockdale, Bristol, Yorkville, Plano, Gilberts, Hampshire, Sandwich, McHenry, Wayne, Addison, Bensonville, Itasca, Clarendon Hills, Fox River Grove, Westmore, Ardmore, Rockdale, Bartlett, Bloomingdale, Warrenville, Roselle.

ULCO LEAD WOOL FOR SERVICE

IN ROPE FORM

UNITED LEAD COMPANY
 111 BROADWAY, NEW YORK

ELECTRICAL DEPARTMENT.

(Operated under same name as gas company.)
Two Natl. Elec. 700 kw. total rated capacity,
A. C. 60 cycle, 2 phase engine generators.
Three Allis Chalmers 2,500 rated capacity,
kw., A. C., 60 cycle, 2 phase turbo gen-
erators.

Three Natl. Elec. 750 kw. total rated capacity,
550 volt D. C. power generators.

The municipal plant lights the streets.

Price current, com'l light per kw., gross, 12c.
Discounts, 2c. to 4c.; power (readiness-to-
serve system) \$1.50 per kw. hr. of max.
dem., plus, 4c; per kw. hr., with discounts
to 1.5c.

Power used: Steam.

Annual sales, approx., 6,265,600 kw.

Supplies Aurora, North Aurora, Montgomery,
Oswego, Wheaton, Warrenville and Glen
Ellyn.

Central Illinois Public Service Co., Beardstown.

Superintendent, H. E. Montgomery.

New bus. mgr., C. O. Duntun.

Pur. agent, D. R. Truax.

Process manufacture, Water-gas (Tenney);
Coal-gas plant for emergency.

Annual prod. water gas, 12,000,000 c. f.; coal-
gas, 3,000,000 c. f.

By products made: Coke, 180 tons; tar, 4,200
gals.

Price coal per ton, delivered, \$3.89.

Price oil, per gal., 3.2c.

Candle-power, 20.

Calorific value, 575 B. t. u.

Total gas holders capacity, 50,000 c. f.

Holder pressure (est.), 3.5 in.

Max. day's send out, 62,000 c. f.

Miles of mains, approx., 14.5.

Street main pres., max., 3.5 in.; min., 2.5 in.

Annual sales, approx., 15,000,000 c. f.

Gas unaccounted for, 15 p. c.

By products sold: Coke, 60 tons.

Pop. dist. supplied, 5,500; of city, 6,107.

No. consumers, 1,021.

No. meters, reg., 934; prepay., 30.

Price gas: Light and Fuel, gross, \$1.30, net,
\$1.20.

Ranges, 697; heaters, 14; water heaters, 66.

Commercial gas arc lamps, 15.

Supplies Beardstown.

ELECTRICAL DEPARTMENT.

System operated, A. C., 3 phase, 60 cycle.

Generating capacity: Lighting and Power, 875
kw.

Voltage: At arc, 70; incand., 110; power, 220.

City lighting contract; hours lighted, 2,700.

Public incand., 145; 80 c. p. Price per year:
106—dusk to dawn—\$21.60; 39—dusk to
midnight—\$15.60; also 48-400 c. p. Price:
13 lighted—dusk to midnight—\$45; 35-
400 c. p. and 6-600 c. p., dusk to dawn,
price per year, total, \$2,460.

Price current per kw. hr., gross, com., 13.5c.,
8c., and 5c.; res., 13.5c. and 8c. Disc., 1c.
per kw. hr.

Power price, 11c., 6c. and 4c. Disc. 1c per
kw. hr.

Output of station, kw. hrs. for year, 2,061,528.
Generating power used, Steam; rated h. p.,
1,050.

Cost of station boiler coal, per ton, \$1.80.

St. Clair County Gas and Electric Co., Belleville.

Illinois Northern Utilities Co., Belvidere.

RR.: C. & No. W. Ex.: Am.

(For capitalization and officers see Parent
Cos. and Appendix.)

Superintendent, W. D. Hart.

Process manufacture, Lowe Improved.

Annual production, 39,276,400 c. f.

Candle-power, 21.

Calorific value, 600 B. t. u.

Price coke per ton, delivered, \$8.50.

Price oil per gal., 3.6c.

Gas holder capacity, 150,000 c. f.

Holder pressure, max., 6 in.

Max. day's send out, 125,000 c. f.

Miles of mains, 26.

Street main pressures, max., 4 in.; min., 3 in.

Annual sales, approx., 31,824,000 c. f.

Gas unaccounted for, 19 p. c.

Pop. city supplied, 7,253.

No. consumers and meters, 1,596.

Price gas: Light and Fuel, gross, \$1.30; net,
\$1.15.

Ranges in use, 1,178; water heaters, 100.

Supplies Belvidere.

ELECTRICAL DEPARTMENT.

(Operated under same name as gas company.)

System operated: Arcs, Brush, D. C.; incand.
and power, A. C., 2 phase.

Generating capacity, lighting and power,
525 kw.

Voltage: Line, 1,150; incand., 115; power,
230; transmission, 33,000.

City lighting contract: Hours lighted per
year, arcs and incand.; some 'til mid-
night, some all night.

No. public arcs, 135; 4 amp. (midnight), price
per year, \$57, 15; 4 amp. (all night),
price per year, \$72.

No. public incand., 70; 80 c. p. (midnight).
Price per year, \$23. 1-80 c. p. (all night).
Price per year, \$30.

Commercial lighting: No. arcs, 15.

Other lamps, Tungsten and Mazda.

Price arc and incand., Com'l, per kw. hr.,
13.5c. Disc., 7c. (all over 1 hr., 7c.).

Output of station, kw. hrs., total for year,
1,251,000.

Generating power used, Steam, rated 600 h. p.

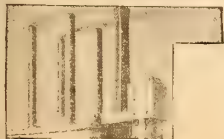

Cost of station boiler coal per ton, \$4.18.

SMOKE STACK AND CHIMNEY PAINTS

We have different kinds of smoke stack and chimney paints depending upon the temperature to
be met with and on other conditions; write and we will submit specifications. For most service
we recommend our No. 750 Smoke Stack Black.

COST METERS

American Meter Company

561 W. 47th St., New York, N. Y.

AND LARGE DIAL DEMONSTRATION DRY METERS

Both these meters should be in the gas sales and demonstration rooms of every gas company in the country. The Cost Meter shows the hourly cost in cents and tenths of a cent to operate gas appliances. The Large Dial Demonstration Dry Meter is used to show the comparative consumption between flat flame and mantle burners.

Street main pressures, max., 3.5 in.; min., 2.5 in.

High pressure mains, 3,200 ft.; pressure, 30 lbs.

Annual sales, 13,835,300 c. f.

Gas unaccounted for, 13 p. c.

Pop. dist. supplied, 2,500; city, 2,410.

No. consumers, 644.

Price gas: Light and Fuel, gross, \$1.50.

Ranges in use, 530; heaters, 100; water heaters, 50.

No. commercial gas arc lamps, 12.

Supplies Morrison.

 High pressure mains, 9 miles; pressure, 1 lb.
 Annual sales, approx., 430,000,000 c. f.
 Gas unaccounted for, 5.6 p. c.
 By-products sold: Coke, 19,418 tons; ammonia, 247,372 gals.

MacDONALD - MANN COKE QUENCHING CHUTES makes quenching an easier and more agreeable duty, as the gas and steam are confined in water-sealed bins during the process. Loss by incipient combustion is reduced to a minimum, and the labor of handling the finished coke is reduced. Write for Catalogue N15-3.

C. W. HUNT CO., INC., Main Office and Works, WEST NEW BRIGHTON, N. Y.

Process of manufacture, Lowe and Natural gas.

Price gas: Light and Fuel, 1st 1,000 c. f., \$1.90c.; next 4,000 c. f., 85c.-75c.; over 5,000 c. f., 50c.

Martinsville Gas and Electric Co., Martinsville.

RRs.: C. C., C. & St. L.; Vand. Ex.: Ad; Am.

Controlled by Reliance Engineering Co., Cincinnati, O.

Capital stock, pref., auth., and issued \$25,000; com., auth. and issued, \$100,000.

Annual div., pref., 7 p. c.; common, 3 p. c.

Bonds, \$40,000; due serially; int., 6 p. c.

President, D. E. Watson.

Secretary and treasurer, L. Lowenberg.

Gen. manager, W. H. Payne.

Engineer, B. H. Gentry.

Superintendent, C. W. Haley.

Pur. agts., Reliance Engineering Co.

Process manufacture, Lowe.

Price coke per ton, delivered, \$5.50.

Price oil per gallon, delivered, 5.5c.

Candlepower, 25; calorific value, 600 B. t. u.

Annual prod., 11,000,000 c. f.

Total gas holders capacity, 40,000 c. f.

Holder pressure, 5 in.

Max. day's send out, 40,000 c. f.

Miles of mains, approximate, 11.5.

Street main pressures, max., 3.75 in.; min., 3.25 in.

Annual sales, approx., 11,000,000 c. f.

Gas unaccounted for, 9.5 p. c.

Pop. dist. supplied, 4,529; of city, the same.

No. consumers and meters, 750.

Price gas: Light, gross, \$1.35; net, less 5 p. c.; Fuel, gross, \$1; net, 95c.

Ranges in use, 350; heaters, 15; water heaters, 210.

Supplies Martinsville.

ELECTRICAL DEPARTMENT.

Capital apportioned to electric plant, about \$80,000.

System operated: Arc, D. C.; incand., D. C. and A. C.; power, D. C. and A. C., 3 phase.

Generating capacity: Lighting and power, 1,000 kw.

Voltage: Arcs, incand., 110; power, 220.

Commercial lighting: No. arcs, 33; No. incand., 8,200.

Price current per kw. hr., gross, 10c.; sliding scale to 3c.

Other lamps, 300 Mazda.

Rates for domestic use, 10c. per kw.

Power circuits: Motors, 780 h. p.; price per kw. hr., 3c. to 6c.

Output of station for year, 1,560,000 kw. hrs. total for year.

Generating power used, Steam; rated h. p., 600.

Steam heating plant supplies 13,200 sq. ft. at 35c. sq. ft. per yr. Exhaust steam, 1/2 mi., 7 in. main and branches.

Cost of station boiler coal, per ton, \$1.50.

Company supplies Morgantown, Ind.

Central Indiana Gas Co., Muncie.

Purchasing agent, C. R. Bohannon.

Superintendent, gas, Jas. W. Dunbar.

Supt., electric, J. M. Merker.

New business mgr., L. W. McLellan.

Process manufacture, Coal.

Price coal per ton, delivered, \$2.95.

Candle-power, 14; calorific value, 590 B. t. u.

Annual production, 102,778,000 c. f.

By-products made: coke, 6,606 tons; tar, 130,000 gals.; ammonia, 30,000 lbs.

Total gas holders capacity, 450,000 c. f.

Max. day's send out, 500,000 c. f.

Miles of mains, approx., 59.

Street main pressures, max., 4 in.; min., 1.5

Annual sales, approx., 100,000,000 c. f.

Gas unaccounted for, 6 p. c.

By-products sold: coke, 6,606 tons; tar, 130,000 gals.; ammonia, 30,000 lbs.

Pop. dist. supplied, 35,000; of cities, New Albany, 20,629; Jeffersonville, 10,412.

No. consumers, 6,222.

No. meters reg., 4,866; prepay., 1,356.

Price gas: Light and Fuel, gross \$1.10; net \$1. (Increased 15 p. c. for period of war.)

Ranges in use, 5,787; heaters, 616; water heaters, 716.

No. commercial gas arcs, 436.

Supplies New Albany, Silver Grove, Jeffersonville, Port Fulton, Clarksville and Claysburg.

ELECTRICAL DEPARTMENT.

Superintendent, J. M. Merker.

System operated: Arc, A. C. and D. C. mag.; incand., A. C.; power, A. C., 1 and 3-phase, 60 cycles.

Generating capacity: Lighting, 1,000 kw.; power, 560 kw.

Voltage: Arcs, 79; incand., 108; power, 110-220-440.

City lighting contract: Hours lighted per year: Arcs and incand., 4,000.

No. public arcs, 309, 320 watt, at \$55.44.

No. public incand., 411, 400, 250, 80, and 60 c. p. Price, \$52.50, \$37.50, \$22.50, \$25, and \$20.50.

Rates for domestic use, 10c., 1st 50 kw.; 6c., next 100 kw.; 5.5c. all over 150 kw.; min. bill, 55c. Disc., 10 p. c.

Power circuits: Motors, 1,552 h. p.

Price current per kw. hr., 8c. 1st 100 kw.; 5c. next 200 kw.; 3c. all over 300 kw. hr. Disc., 10 p. c.

Output of station, kw. hrs. for year, 8,000,000.

Generating power used, Steam.

Power used also for city and interurban railways, and commercial.

Service furnished to New Albany and Jeffersonville, Ind.

Practically all power requirements purchased.

Indiana Gas Light Co., Noblesville.

RRs.: Cen. Ind.; L. E. & W. Ex.: Am.

Capital stock, \$1,000,000.

Bonds, \$388,000; due 1932; int., 5 p. c.

President, C. H. Geist.

Secretary, Clark R. Graves.

Treasurer, B. F. Davis.

General manager, H. S. Schutt, Phila., Pa.

Manager, Clark R. Graves. (Resigned June 1.)

Superintendent, L. B. Rogers.

Indus. fuel engineer, L. N. Chamberlain.

Process manufacture, Coal and Lowe.

Annual prod.: coal-gas, 270,000,000 c. f.; water-gas, 220,000,000 c. f.

Candle-power, 18.

Calorific value, 600 B. t. u.

Total gas holders capacity, 1,360,000 c. f.

Max. day's send out, 1,888,000 c. f.

Miles of mains, 107.

Street main pressures, max., 5 in.; min., 2.5 in.

High pressure mains, miles, 15; pressure 5 lbs.

Annual sales, approx., 460,000,000 c. f.

Gas unaccounted for, 7 p. c.

Pop. city, 53,000; of dist. supplied, 55,000.

No. consumers, 12,104.

No. meters, reg., 10,951; prepay., 1,153.

Price gas: Light and Fuel, gross, \$1.35 and \$1.00; net, \$1.25 and \$0.90.

Ranges in use, 9,300; water heaters, 1,621.

No. commercial gas arc lamps, 941.

Supplies Lansing, East Lansing, Lansing Township.

Calumet Gas and Coke Co., Laurium.

RRs.: Min. Range; Copper Range. Ex.: West.

(Successor to Calumet Gas Co.)

Main office, 207 Fifth St., Calumet, Mich.

Capital stock com. auth., \$150,000; issued \$100,000.

President, William M. Gibson.

Vice-president, John Brandettini.

Treasurer, Frederick K. Guck.

General manager, John Brandettini.

Mgr. and pur. agent, Arthur P. Eva.

New bus. mgr., Arthur P. Eva.

Process manufacture, Coal and Lowe.

Price of coal per ton, delivered, \$7.

Price of oil per gal., 11c.

Annual production, 30,000,000 c. f.

Average candle-power, 17; calorific value, 560 B. t. u.

By-products made: Coke, 2,030 tons; tar, 30,000 gals.

Gas holder capacity, 135,000 c. f.

Holder pressure, 4 in.

Max. day's send out, 100,000 c. f.

High pressure mains, miles, 8; pressure, 10 lbs.

Miles of street mains, approximate, 11.

Street main pressures, max., 4 in.; min., 3.5 in.

Annual sales, approx., 28,000,000 c. f.

Gas unaccounted for, 7 p. c.

Proof-Tested Chains

**Williams' Improved "Vulcan"
 Drop-Forged Chain Pipe Wrench**

J. H. WILLIAMS & CO., 74 Richards St.,
 BROOKLYN, N.Y.

By-products sold: Coke, 1,000 tons; tar, 30,000 gals.
Pop. dist. supplied, 16,000; of city, est., 12,000.
No. consumers, 1,150.
No. meters in service, reg., 480; prepay., 670.
Price gas: Light and Fuel, gross, \$1.75; net, \$1.60.
Ranges in use, 800; heaters, 150; water heaters, 175.
No. commercial gas arc lamps, 450.
Supplies Laurium and Red Jacket.

Ludington Gas Co., Ludington.

RRs.: Pere Marq.; Mich. Salt Trans.; No. Mich. Trans.; S. & M. Lumber Line; Nessen Trans. Ferry to Buttersville, Mich. Ex.: Am.

Capital stock, com., \$100,000; pref., \$25,000.
Bonds, \$92,000; due 1936; int., 5 p. c.
President, Chas. N. Remington, Grand Rapids.
Vice-president, Andrew Fyfe, Grand Rapids.
Secretary, Chas. A. Coye, Grand Rapids.
Treasurer, Henry L. Adzit, Grand Rapids.

 Candle-power, 22; calorific value, 608 B. t. u.
 Annual production, 29,700,000 c. f.

By-products made: Tar, 8,000 gals.
 Total gas holders capacity, 60,000 c. f.
 Holder pressure, 5.5 in.
 Max. day's send out, 110,000 c. f.
 Miles of mains, approx., 23.5.
 Street main pressures, max., 5.5 in.; min., 2.7 in.
 Annual sales, approx., 27,572,900 c. f.
 Gas unaccounted for, 5.2 p. c.
 By-products sold: Tar, 600 gals.
 Pop. dist. supplied, 9,600; of city, 10,900
 No. consumers, 1,420.
 No. meters, reg., 1,310; prepay., 110.
 Price gas: Light and Fuel, gross, \$1.50; net, \$1.45 to \$1.35.
 Ranges in use, 1,400; heaters, 400; water heaters, 497.
 No. commercial gas arc lamps, 25.
 Supplies Hastings.

Midway Gas Co., Kearney.

RRs.: C., B. & Q.; U. P. Ex.: Ad.; Pac.

(Successors to Midway Lt., Heat & Power Co.)
 Capital stock, \$75,000.
 Bonds, \$20,000; due 1928; int., 6 p. c.
 President, C. E. Collins.
 Secretary and treas., R. F. Pfeiffer.
 General mgr., R. F. Pfeiffer.
 Superintendent, Roy Pledger.
 Pur. agent, Don Leake.
 Process manufacture, Lowe (Tenney).
 Price coke per ton, delivered, \$13.
 Price of oil per gal., delivered, 5.25c.
 Candle-power, 20. Cal. val., 600 B. t. u.
 Max. day's send out, 40,000 c. f.
 Total gas holders capacity, 60,000 c. f.
 Miles of mains, approx., 14.
 Street main pres., max., 4 in.; min., 3.5 in.
 Annual sales, approx., 10,000,000 c. f.
 Gas unaccounted for, 15 p. c.
 Pop. dist. supplied, 5,000; of city, 6,202.
 No. consumers, 700.
 No. meters, reg., 690; prepay., 10.
 Price gas: Light and Fuel, gross \$1.75; net, \$1.575. Sliding scale, \$1.75 to \$1.35.
 Ranges, 375; heaters, 55; water heaters, 140.
 No. commercial gas arc lamps, 25.
 Supplies Kearney.

ELECTRICAL DEPARTMENT.

(Operated under name of Kearney Water & Elect. Powers Co.)
 Capital, electric plant, \$310,000.
 System operated: Arc, incand. and power, A. C., 3 phase, 60 cycle.
 Generating capacity: Lighting and power, 1,800 kw.
 Voltage: Line, 2,300; incand., 110; power, 220.
 (Transmission line to Gibbon, Neb., 33,000.
 Substation transformer, total 2,325 kw.; at Gibbon, 150 kw. Other lines planned.)
 City lighting contract: Hours lighted, all night and every night.
 No. public 5 ft. ornamental posts, 104; price, \$3.30 per post.
 No. public incand., 225; 75 100-watt. Price, \$2.35. 175 60-c. p. Price, \$1.75.
 Commercial lighting: No. incand., 18,000.

HUNT PIVOTED BUCKET CONVEYORS are reducing coal and coke handling costs in a great many of the largest gas works. Catalogue N15-4 describes the details of design, and shows a number of typical installations. Our engineers are at your service.
C. W. HUNT CO., INC., Main Office and Works, WEST NEW BRIGHTON, N. Y.

Price current per kw. hr., gross, 10c.; disc., 20 p. c.
 Power circuits: No. motors, 75; price per kw. hr., 6c. to 8c.; disc., 20 p. c.
 Output of station, kw. for year, 1,500,000.
 Generating power used, Water, 900 kw.; Steam turbine, 900 kw.
 Cost of station boiler coal per ton, \$6.60.

Lincoln Gas and Electric Light Co., Lincoln.

CALORIMETERS

American Meter Company

561 W. 47th St., New York, N. Y.

The American-Junkers' Calorimeter has been greatly improved and accessories added until it has been made what we consider the most advanced type of instrument for this purpose now in use. This is confirmed by the numerous orders we are constantly receiving for it from all parts of the country and that it has been furnished to all the large syndicates, State Public Utilities Commissions and the City Gas Inspectors, the Public Utilities Commission at Washington, D. C., the U. S. Bureau of Standards, and the U. S. Department of War.

Annual sales, approx., 28,396,100 c. f.
 Gas unaccounted for, 15.98 p. c.
 Po. dist. sup.: Winter, 10,000; summer, 5,000.
 No. consumers, 1,356.
 No. meters, 1,356.
 Price gas: Light and Fuel, \$1.50-\$1.25-\$1.
 No. public Welsbach lamps, 81; hours lighted, 4,000.
 Contract includes repairs, care, lighting and extinguishing.
 Ranges in use, 1,000; heaters, 200; water heaters, 750.
 No. commercial gas arc lamps, 200.
 Supplies Lakewood.

ULCO LEAD WOOL FOR TIGHT JOINTS

IN ROPE FORM

UNITED LEAD COMPANY
 111 BROADWAY, NEW YORK

Municipal incand. gas street lamp rates, as follows:

	1st Step 50 Lamps	2nd Step 51 to 150 Lamps	3rd Step over 150 Lamps
Single mantle lamps.	\$26.00	\$25.00	\$24.00
Two mantle lamps (inverted mantles one globe)	36.40	35.00	33.60
Four mantle lamps (upright mantles three globes)	70.20	67.50	64.80

Where the incandescent gas lamp service furnished a municipality consists of lamps of two or more of the types mentioned in the schedule the average rate charged for lamps of each type shall be the average rate obtained for an installation of lamps of that type, equivalent in number to the total number of incandescent lamps furnished.

Municipal open flame gas street lamp rate: \$18.00 per lamp per annum; any number of lamps.

Discounts will be allowed from the foregoing schedules, for lamps therein mentioned, based upon the term of contract as follows, viz.:

For a one year contract.....	1/2%
For a two year contract.....	1%
For a three year contract.....	1 1/2%
For a four year contract.....	2%
For a contract of five years or over....	2 1/2%
Contract includes repairs, care, lighting and extinguishing.	

Supplies Newark, East Newark, Harrison, Irvington, Kearny, Belleville, North Arlington, East Orange, Orange, South Orange Township, South Orange Village, West Orange, Montclair, Bloomfield, Caldwell Borough, Glen Ridge, Verona, Essex Fells, North Caldwell, West Caldwell, Summit, Chatham, Milburn, Springfield, Morristown, Morris Township, Florham Park, Hanover Township, Madison and Roseland.

ELECTRICAL DEPARTMENT.

(Operated under name of Public Service Electric Co.)

System operated: Light: Arcs, A. C. series, incand., A. C., 60 cycle, single phase; power, D. C., 60 cycle, single phase, 2 and 3 phase.

Station generating capacity, 103,953 kw.

City lighting: Hours lighted per year, 4,001.

Public arcs, 2,608; price per year, reg., 2,000 c. p. arcs. Standard rates: \$80 per lamp to 250 lamps; \$75 per lamp to 750 lamps; \$70 to 1,250 lamps; \$65 to 1,750 lamps; \$60 over 1,750 lamps. Reg. 1,200 c. p. arcs at 5 p. c. less than 2,000 c. p. rates.

Type "C" Mazda rates as follows:

	1st Step 250 Lamps	2d Step 251-750 Lamps	3d Step 751-1250 Lamps	4th Step 1251-1750 Lamps	5th Step over 1750 Lamps
400 C. P.	\$66.00	\$61.88	\$57.75	\$53.63	\$49.50
600 C. P.	80.00	75.00	70.00	65.00	60.00
1000 C. P.	104.00	97.50	91.00	84.50	78.00

The above specified Type "C" Mazda lamps shall be counted as arc lamps in applying the totaling step rate clause of the municipal arc lighting rate. Discounts as on other municipal rates.

Public incand., 6,280; price per year, per following schedule:

	1st Step 50 Lamps	2nd Step 51 to 100 Lamps	3rd Step 101 to 200 Lamps	4th Step over 200 Lamps
25 C. P.	\$18.00	\$16.65	\$15.30	\$13.95
32 C. P.	20.00	18.50	17.00	15.50
40 C. P.	22.50	20.81	19.12	17.44
60 C. P.	26.50	24.51	22.52	20.54
80 C. P.	30.00	27.75	25.50	23.25
100 C. P.	32.75	30.29	27.83	25.37
200 C. P.	55.00	50.88	46.75	42.63
350 C. P.	85.00	78.63	72.25	65.88

Where the incandescent service furnished a municipality consists of lamps of two or more of the candle-powers shown in the schedule, the average rate charged for lamps of each candle-power shall be the average rate obtained for an installation of lamps of that candle-power equivalent in number to the total number of lamps furnished.

Discounts will be allowed from the foregoing schedule, for lamps therein specified, based upon the term of contract as follows, viz.:

For a one (1) year contract.....	1/2 p. c.
For a two (2) year contract.....	1 p. c.
For a three (3) year contract.....	1 1/2 p. c.
For a four (4) year contract.....	2 p. c.
For a contract of (5) years or over.....	2 1/2 p. c.

Commercial lighting rate, 10c. per kw. hr., for 1st 500 kw. hr.; 9c. for next 500; 8c. for next 500; 7c. for next 500; 6c. for next 500; 5c. for next 5,000; 4c. for next 15,000; 3c. for all over 22,500 kw. hrs. Min. charge, \$1.

Retail commercial power rate: 1st step, 10c. per kw. hr. for monthly consumption equal to 20 kw. hr. per horse-power of maximum demand; 2nd step, 6c. per kw. hr. for first 50 kw. hr. in excess of total monthly consumption on first step; 3rd step, 4c. per kw. hr. for next 500 kw. hr.; 4th step, 2c. per kw. hr. for all excess consumption over the above steps, with a war sur-charge of 25 p. c. on bills for all current except that paid for at 10c. step. Minimum charge, 50c. per horse-power connected.

Wholesale commercial power rate, primary charge (monthly): \$1.50 per horse-power of maximum demand up to 200 h. p.; \$1.35 per horse-power of excess of maximum demand over 200 up to 400 h. p.; \$1.20 per horse-power of excess of maximum demand over 400 h. p.

Secondary charge (monthly): 3c. per kw. hr. for first 3,000 kw. hr.; 2c. per kw. hr. for next 7,000 kw. hr.; 1c. per kw. hr. for all over 10,000 kw. hr. with a war sur-charge on bill. Minimum charge, \$300 per month.

FOR GAS HOLDERS IN EXPOSED POSITIONS

No. 26 Battleship Gray or Low Visibility Gray, used where red paint is objectionable, or where it is desirable to make a gas holder less prominent, as for instance on the seashore.

Write for
Review of Technical Paints.

CHEESMAN & ELLIOT, 100 William St., New York

Power rate schedules are subject to a coal clause supplementary to the above war sur-charge as follows:

The charge for each kw. hr. of elec. energy furnished, except that furnished and paid for at the 10c. rate, shall be subject to an addition or deduction of twenty-eight thousandths (0.28) of a cent per kilowatt hour for each 25c. per gross ton of increase or decrease from an average cost for bit. coal of \$5.25 per gross ton, delivered at generating stations during each month.

Engineer, Alviah Rice.

Process manufacture, Lowe.

Price coal per ton, delivered: anthracite, \$6.25; bituminous, \$4.85.

Price oil per gal., delivered, 4.97c.

Candle-power, 22.

Calorific value, 620 B. t. u.

Miles of mains, approximate, 8.

Street main pressures, max., 3.2 in.; min., 3 in.

Max. day's send out, 40,000 c. f.

Total gas holders capacity, 65,000 c. f.

Annual sales, approx., 12,000,000 c. f.

Gas unaccounted for, 7 p. c.

Pop. town supplied, 4,467.

No. consumers, 630.

No. meters, reg., 330; prepay., 300.

Price gas: Light, gross \$1.75; net \$1.60. Fuel, gross \$1.35; net \$1.20.

Ranges in use, 300; heaters, 75; water heaters, 25.

Supplies Newton.

ELECTRICAL DEPARTMENT.

(Operated under same name as gas company.)

System operated: A. C., 3-phase, 60 cycles.

Voltage, line, 2,300.

Incand. and power, generators, 450 kw. capac.

No. public arcs, 90; 6.6 amp.; hours lighted, 4,000.

No. public incand., 20.

Price arc, public, per year, \$72.50.

Price incand., public, per year, 24 c. p., \$24.

Price incand., commercial, per kw., 8c. to 15c.; disc., 5 p. c.

Power used: Gas; rated 600 h. p.

Cost station boiler coal per ton, \$4.55.

THE SCIENTIFIC SAFETY GARAGE HEATER

The Standard with all Gas Companies.

Because of our sales assistance to gas companies.

Engineer, elec., A. R. Blackwood.

Engineer, gas, A. L. Park.

Supt. and pur. agt., C. M. Einhardt.

Process manufacture, Oil (Beal).

Price oil per gallon, delivered, 7.2c.

Candle-power, 18; calorific value, 600 B. t. u.

Annual production, 9,000,000 c. f.

Total gas holders capacity, 100,000 c. f.

Holder pressure, max., 4.5 in.

Max. day's send out, 40,000 c. f.

Miles of mains, approx., 21.

Street main pressures, max., 3.75 in.; min., 3.5 in.

Annual sales, approx., 8,000,000 c. f.

Gas unaccounted for, 16 p. c.

Pop. dist. supplied, 6,500; of city, 7,500.

No. meters, reg., 303; prepay., 380.

No. consumers, 683.

Price gas: Light and Fuel, gross, \$2; net, \$1.80 and \$1.50; min., \$1.

Ranges in use, 585; heaters, 450; water heaters, 235.

Supplies Roswell.

ELECTRICAL DEPARTMENT.

System operated: Arc and incand., A. C.; power, 3 phase, 60 cycle.

Generating capacity: Lighting and power, 1,850 kw.

Voltage: Arcs, 72; incand., 110; power, 110-220 and 550.

City lighting contract: Hours lighted per year, incand., 2,000.

No. public incand., 90; 80 and 100 watt. Price per year, \$32 and \$36. 150 three-light

ornamental ltg post; \$1.35 per mo. net.

Commercial lighting: No. incand., 40,000.

No. electric consumers, 1,288.

Price per kw. hr., gross, 15c. and 8c. Disc., 1c. per kw. hr.

Domestic rates, 15c. and 8c., lighting; 4c. per kw. hr., net cooking; \$3 min. bill.

Power circuits, motors, 870 h. p.; price, current per kw. hr, 5c. With \$1 h. p. ready to serve charge. Disc., 1c. per kw. hr.

Power used also for irrigation.

Output of station, kw. for year, 1,650,000.

Generating power used, steam and gas engines; rated h. p., 2,600.

Cost of station boiler coal, per ton, \$6.30 (slack); \$7.50 (producer coal).

Gas purchased from Empire Coke Co.
Gas purchased, 2,409,700 c. f.
Calorific value, 585 B.t.u.
High pressure mains, 2 miles; pres., 20 lbs.
(individual regulators).
Max. day's send out, 6,600 c. f.
Annual sales, approx., 2,374,700 c. f.
Pop. of city, 1,354; of dist. supplied, 1,500.
No. consumers, 187.
No. meters, reg., 182; prepay., 5.
Price gas: Light and Fuel, \$1 per 1,000 c. f.,
plus 50c. consumer's charge per month;
10c. penalty, 10 days.
Gas appliances in use: Ranges, 115; heaters,
20; water heaters, 35.
Supplies Phelps and Oaks Corners.

ELECTRICAL DEPARTMENT.

System operated: Incand. and power, A. C., 3
phase, 60 cycles.
Generating capacity: Lighting, 150 kw.;
power, 150 kw.
Voltage: Line, 2,300; incand., 110; power, 220.
City lighting contract: Hrs. lighted per year,
3,600 (dusk till dawn).
No. public incand., 114; 23-100 c. p.; price
\$34 per year, and 91-60 c. p.; price \$20
per year.
Price current per kw. hr., gross, 7c. kw., plus
\$1 consumer's charge per month.
Power circuits: No. motors, 24; price per
kw. hr., 1.8c. to 4c.

Recording Calorgraph automatically and constantly records the calorific power of any gas in gross or net heat units, with 60-day or 24-hour charts. Write for Bulletin.

PRECISION INSTRUMENT COMPANY : : : : DETROIT, MICHIGAN

Output of sub-station, kw. hrs. for year, 261,590.
Current taken from Empire Gas & Elec. Co. transmission line.

Plattsburg Gas and Electric Co., Plattsburg.

 Candle-power, 15.8. Calorific value, 620 B.t.u.
 Annual production, 15,330,515 c. f.
 By-products made: Coke, 1,188 tons; tar, 17,712 gallons.
 Total gas holder capacity, 67,000 c. f.
 Holder pressure, 4 in.
 Max. day's send out, 65,000 c. f.
 Miles of mains, approx., 8.7.
 Street main pressures, max., 4 in.; min., 3.2 in.
 Annual sales, approx., 14,400,000 c. f.
 Gas unaccounted for, 7 p. c.
 By-products sold: Coke, 691 tons; tar, 15,212 gallons.
 Pop. dist. supplied, 5,000; of city, 4,500, est.
 No. meters, reg., 655; prepay., 385.

ULCO LEAD WOOL FOR SAFETY

IN ROPE FORM

UNITED LEAD COMPANY

111 BROADWAY, NEW YORK

Price gas: Light and Fuel, gross, \$1.80; net, \$1.40.
 Ranges, 650; water heaters, 185.
 No. commercial gas arc lamps, 110.
 Supplies Saugerties.

Mohawk Gas Co., Schenectady.

RRs.: N. Y. C. & H. R.; D. & H.; Erie Canal.
 Ex.: Am.; Nat.

Controlled by Schenectady Illuminating Co.
 Capital stock: Pref., \$154,000. Com.: auth., \$1,746,000; issued, \$376,900.

President, vacant.

Vice-pres. and gen. mgr., Henry W. Peck.

Sec'y and treas., D. E. Peck.

Purchasing agent, W. L. Fellows.

Eng'r and asst. gen. mgr., V. von Starzenski.

Superintendent, M. G. Welsh.

New bus. mgr., L. E. Cass.

Process manufacture, Lowe and Coal (Wood-all-Duckham).

Price coal per ton, delivered, \$5.75.

Price oil per gal., delivered, 9.3c.

Calorific value, 585 B. t. u.

Annual production: Water gas, 155,205,000 c. f.; coal gas, 328,852,000 c. f.

By-products made: Coke, 14,000 tons; tar, 400,000 gals.; ammonia sulphate, 144,000 lbs.

Total gas holder capacity, 2,950,000 c. f.

Holder pressure, 13 in.

Max. day's send out, 1,790,000 c. f.

Miles of mains, approx., 111.

Street main pressures, max., 5.5 in.; min., 2.5 in.

Annual sales, approx., 462,000,000 c. f.

Gas unaccounted for, 5 p. c.

By-products sold: Coke, 14,000 tons; tar, 400,000 gals.; ammonia sulphate, 144,000 lbs.

Pop. dist. supplied, 100,000; city, 72,800.

No. consumers, 17,300.

No. meters, reg., 16,300; prepay., 1,000.

Price gas: Light, gross, \$1.10; net, \$1. Fuel, gross, \$1.10; net, \$1.

Ranges in use, 12,800; heaters, 1,700; water heaters, 2,000.

No. commercial gas arc lamps, 1,000.

Supplies Schenectady, Scotia, Rotterdam and Niskayuna and Glenville.

SCHENECTADY ILLUMINATING CO.

(Operated by same management as gas company, and same general offices.)

Capital electric plant, \$2,080,000.

Superintendent, C. S. Van Dyke.

System operated: Arcs, com'l, 1 phase, 60 cycles; incand., 1 phase, 60 cycle, A. C.; power, 60 cycle, 3 phase, A. C. and single phase.

Power purchased from G. E. Co., 40 cycles, 3 phase; distributed in city, 60 cycles; two other distributing stations furnish 40 cycle, single phase current.

Voltage: Line, 2,300; incand., 118; power, 236.

Miles of overhead wires, 894.7; underground cables, 47.

City lighting contract: Hours lighted per year: Arc, 3,936; incand., 3,936.

No. public arcs, 893; 320 watt. Price per year, \$60, 69-500 watt; price per year, \$91.

No. public incand., 335-40 watt, price \$16; 131-60 watt, price \$18; 8-80 watt, price \$16 (old contract); 157-80 watt, prices \$27, \$28 and \$31; 24-100 watt, price, \$24; 29-250 watt, price \$40; 4-250 watt, price \$45.

Commercial lighting: No. incand., est. 500,000; 16 c. p. equiv.

Price current per kw. hr., gross, 10c. to 3.5c.; disc., 10 p. c. Cooking rate, 3c. per kw. hr.

Yearly contract: \$2.50 per kw. of max. demand per mo. and 3.5c. and 2c.

Power circuits: Motors, approx., 3,000 kw.

Price power current, 7c. per kw. hr. to 3.5c. Discount, 10 p. c.

Other uses, cooking outfits, elec. furnaces, flat-irons, toasters, etc.

Output of station, kw. hrs., total for year, 27,116,300.

Power purchased from water and steam plant.

Supplies Rotterdam Junction, Loudonville, Rexford Flats, Schenectady, South Schenectady, Burnt Hills, Scotia, Newtonville, West Albany, Ballston Lake, Niskayuna Patersonville and West Albany.

Empire Gas and Electric Co., Seneca Falls.

RRs.: N. Y. C. & H. R.; L. Val.; Cayuga and Seneca Canal. Ex.: Am.

Controlled by Empire Coke Co.

(For financial and officers, see this company's report under Appendix.)

President, E. H. Palmer.

Secretary, L. G. Hoskins.

Treasurer, C. H. Pierce.

Pur. agent, W. S. Osborne.

General manager, H. L. Coleman.

Engineer, H. O. Palmer.

Superintendent and new bus. mgr., G. Mayer.

Gas furnished by Empire Coke Co.

Calorific value, 590 B. t. u.

Gas purchased, 32,363,000 c. f.

Total gas holders capacity, 50,000 c. f.

Holder pressure, 5 in.

Max. day's send out, 121,000 c. f.

Miles of mains, approx., 14.

Street main pressures, max., 5 in.; min., 4 in.

High pressure mains, 3 mi.; press., 12 lbs.

Annual sales, approx., 35,000,000 c. f.

Gas unaccounted for, 6 p. c.

Pop. dist. supplied, 7,000; of city (est.), same.

No. meters, reg., 900; prepay., 500.

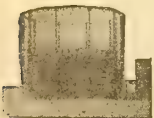

No. consumers, 1,400.

Price gas: Light and Fuel: Consumer's charge, 50c. per month. Gas billed at 90c. per 1,000 c. f. net; 10c. per 1,000 c. f. added after 10th of month.

Ranges in use, 1,000; heaters, 600; water heaters, 600.

No. commercial gas arc lamps, 150.

Supplies Seneca Falls.

HOLDER PAINTS:—

Our line includes No. 31 Williamsport Red.

The standard holder paint of many of the largest companies. No. 1908 Green on holder frames makes a pleasing contrast.

No. public incand.: 53, 75-watt, price per year, \$20; 84 5-light, 60-watt, price per year, \$73.30; 191 3-light, 60-watt, price per year, \$58.

RECOVER TOLUOL AND BENZOL by scrubbing your gas to remove the light oils. We will be pleased to advise you in regard to a plant for this purpose.

HOPE ENGINEERING & SUPPLY COMPANY,

Pittsburgh, Pa.

Mt. Vernon, Ohio.

Tulsa, Okla.

Price current, per kw. hour; sliding scale, 9c. to 2c. net.
 Power circuits: No. motors, 130; price per kw. hr., 9c. to 2c.
 Output of station, kw. for year, 49,990,812.
 Generating power used: Steam; rated h. p. 2,250; water, 10,680 kw.
 Cost of station boiler coal, per ton, \$8.25.

Waterville Gas and Electric Co., Waterville.

(Company has ceased operation of its gas plant.)

Watkins Illuminating and Power Co., Watkins.

RRs.: El. & Sen. L. Trac. (El.); N. Y. C. & H. R.; No. Cen; 3 mi. from Burdett, on L. Val. Ex.: Am.; Ad.; W. F.; S. B.; Sen. Co.

Capital stock, \$50,000.
 Bonds, \$50,000; int., 5 p. c.
 President, Geo. A. Walter.
 Secretary, C. M. Durland.
 Treasurer, C. M. Durland.
 Purchasing agent, Clarence Seeley.
 Superintendent, Clarence Seeley.
 Process manufacture, Coal.
 Price coal per ton, delivered, \$3.50, avg.
 Candle-power, 17.
 Annual production, 1,000,000 c. f.
 Gas holder capacity, 20,000 c. f.
 Holder pressure, 3.3 in.
 Max. day's send out, 70,000 c. f.
 Miles of mains, approximate, 5.
 Street main pressures, max., 3.5 in.; min., 3 in.
 Population of city, 2,817; of dist. supplied, the same.
 No. consumers and meters, 140.
 Price gas: Light and Fuel, gross, \$1.60 to \$1.25; net, \$1.50 to \$1.25.
 Supplies Watkins.

The Gas Light Co. of Waverly, Waverly.

RRs.: D., L. & W.; L. Val.; Erie. Ex.: W. F.

(Also owns and operates Athens and Sayre Gas Co., Athens, Pa.)

Capital stock, \$150,000.
 Bonds, \$150,000; due 1929; interest, 5 p. c.
 President, R. F. Page.
 Secretary, J. G. Pemberton.
 Treasurer, O. L. Haverly.
 General manager, O. L. Haverly.
 Supt. and pur. agt., O. L. Haverly.
 New bus. mgr., O. L. Haverly.
 Process manufacture, Lowe.
 Gas purchased, 14,000,000 c. f.
 Candle-power, 20; calorific value, 600 B. t. u.
 Max. day's send out, 40,000 c. f.
 Total gas holder capacity, 20,000 c. f.
 Holder pressure, 3 in.
 Miles of mains, approx., 13.
 Street main pressures, max., 3 in.; min., 2.5 in.
 High pressure mains, 3.5 miles; pressure 5 lbs.
 Annual sales, approx., 14,000,000 c. f.
 Gas unaccounted for, 10 p. c.
 Pop. dist. supplied, 5,000; of city, 4,855 (1910).
 No. consumers, 869.
 No. meters, reg., 683; prepay., 186.

Price gas: Light and Fuel, \$1.50 gross; \$1.35 net.

Ranges in use, 525; heaters, 350; water heaters, 375.

No. commercial gas arc lamps, 100.

Supplies Waverly and South Waverly.

The Bronx Gas and Electric Co., Westchester.

RR.: N. Y., N. H. & H. Ex.: Ad.

Capital stock, \$500,000 com. auth.; \$486,500 issued; ann. div., 6 p. c.
 Bonds, \$1,171,000; due 1960; int., 5 p. c.
 President, E. H. Rosenquest.
 Secretary and treas., J. M. Butler.
 Pur. agent, J. M. Butler.
 General manager, E. H. Rosenquest.
 New bus. mgr., William A. Root.
 Process of manufacture, Lowe.
 Candle-power, 22.
 Calorific value, 656 B. t. u.
 Price of coal per ton, delivered, \$6.
 Price of oil per gal., 5.3c.
 Total gas holders capacity, 650,000 c. f.
 Max. day's send out, 1,038,000 c. f.
 Holder pressure, 4 in.
 Miles of mains, approx., 65.
 Street main pressure, max., 4 in.; min., 2 in.
 Annual sales, approx., 200,000,000 c. f.
 Gas unaccounted for, 13 p. c.
 Pop. borough, 430,980; dist. supplied, approx., 35,000.
 No. consumers, 8,200.
 No. meters, reg., 7,800.
 Price gas: Light and Fuel, net \$1.00.
 Supplies Westchester, Borough of Bronx, New York City.

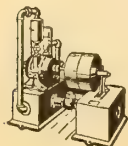

ELECTRICAL DEPARTMENT.

System operated: Incand. and power, A. C., 2 phase, 60 cycle.
 Generating capacity: 3,600 kw.
 Miles of overhead wires, 200.
 Voltage: Lamps in series, incand., 110; power, 220.
 City lighting contract: Hours lighted per year, 3,950.
 No. public incand., 1,863, 100 c. p.; price per year, \$30. 443 400 c. p.; price per year, \$90. 145 250 c. p.; price per year, \$60.
 Price current per kw. hr., gross, 12c.; wholesale, 10c.
 Power circuits; price current per kw. hr., 10c.; disc., sliding scale.
 Output of station, kw. per year, 3,300,000.
 Generating power used, Steam; rated, 3,600 kw.

U. S. Government Gas Plant, West Point.

RR.: W. Sh. S. Bs.: H. R.; Cen. Hud; Ferry to Garrison, N. Y. Ex.: Nat.

Officer in charge, Col. E. J. Timberlake, Q. M. C.
 Superintendent, Ira N. Goff.
 Engineer elec. dept., H. L. Brown.
 Process manufacture, Coal.
 Price coal per ton, delivered, \$5.60.
 Candle-power, 15.5. Calorific value, 600 B. t. u.
 Annual production, 12,800,000 c. f.

THE NEEDHAM HIGH PRESSURE GAS SYSTEM is the ideal system to accomplish fuel conservation. It satisfies the customer's requirements.

THE NEEDHAM GAS APPLIANCE CO., 550 W. 25th St., New York, N. Y.

By-products made: Coke, 1,100 tons; tar, 21,316 gals.
 Total gas holder capacity, 100,000 c. f.
 Holder pressure, 3.4 in.
 Max. day's send out, 60,000 c. f.
 Miles of mains, approx., 7.5.
 Street main pressures, max., 4.5 in.; min., 2.8 in.
 Annual sales, approx., 12,800,000 c. f.
 Gas unaccounted for, 10 p. c.
 Coke and tar is sold, and also used on reservation.
 Pop. reservation supplied, 2,550.
 No. meters, reg., 164.
 Price gas: Light and Fuel, 80c.
 No. public gas lamps, 10; lighted about 3,650 hrs.
 Contract includes repairs, care, lighting and extinguishing.
 Ranges in use, 165; heaters, 50; water heaters, 56.
 No. commercial gas arc lamps, 7.
 Supplies West Point Military Reservation.

ELECTRICAL DEPARTMENT.

System operated: Lighting, arcs, D. C.; incand., D. C. and A. C., single phase, 60 cycle; power, D. C. and A. C.
 Generating capacity: Lighting and Power, 1,000 kw., D. C.; 375 kw., A. C.
 Voltage: Arcs, 120 D. C.; incand., 120 A. C., 240 D. C.; power, 240 D. C., 120 A. C.
 Miles of overhead wire, 1; underground cables, 35.
 Commercial arcs, 36; incand., 1,800.
 Price, commercial, per kw. hr., gross, 5c.
 Power circuits: No. motors, 125.

Price power current per kw. hr., 5c.
 Output of station, kw. for year, 1,021,000.
 Generating power, Steam; rated 1,500 h. p.
 Cost of station boiler coal, per ton, \$3.95.
 Current used on the government reservation for street lighting, all government buildings, and power.

Woodhaven Gas Light Co., Woodhaven.

RRs.: B. El. Ry.; L. I. Ex.: L. I.; Am.
 Controlled by The Brooklyn Union Gas Co.
 Capital stock, \$20,000.

Total gas holder capacity, 280,000 c. f.

Holder pressure, max., 4 in.

Max. day's send out, 197,200 c. f.

Miles of mains, approx., 25.5.

Street main pressures, max., 3.3 in.; min., 2.8 in.

Annual sales, approx., 51,361,100 c. f.

Gas unaccounted for, 7 p. c.

By-products sold: Coke, 2,687 tons; tar, 65,941 gals.

Pop. dist. supplied, 15,500: cities, Grand

Forks, 12,708; East Grand Forks, 2,792.

No. gas consumers, 2,155.

No. meters, reg., 1,682; prepay., 473.

Price gas: Light and Fuel, basic rate (net), \$1.48 to 99c.

Ranges in use, 1,987; heaters, 92; water heaters, 456.

No. commercial gas arc lamps, 216.

Supplies Grand Forks, N. D., East Grand Forks, Minn.

ELECTRICAL DEPARTMENT.

System operated: Incand., D. C. and A. C., 60 cycles; power, D. C. and A. C., 3 phase, 60 cycles.

Generating capacity, 2,085 kw.

Voltage: Incand., 110; power, 110-220; street railway, 550.

Commercial lighting, incand., 32,489.

Price commercial, per kw. hr.: Basic rate (net), 10.9c. to 3.51c.

Other lamps, 6,366 sign lamps.

For twenty years the largest Gas Companies in America and England have used the GOODMAN STOPPER.

SAFETY GAS MAIN STOPPER COMPANY,

263 East 133rd Street, New York, N. Y.

Power circuits: No. motors, 211; price, basic rate (net), 6.59c. to 3.57c.

Used also for 175 desk and fan motors, 1,710 flat irons and appliances, 2 auto charging, 8 moving picture machines, 838 miscellaneous appliances.

No. of consumers, 2,913.

Output of station, kw. hrs. for year, approx., 3,480,721.

Power used, Steam; rated h. p., 2,718.

Hydro-electric power received over 30 miles, 33,000 volt line, from Crookston, Minn.

Serves Grand Forks, N. D.: Fisher, Red Lake Falls and St. Hilaire, Minn.

Engineer and pur. agent, United Gas & El. Eng. Corp.

Process manufacture, Lowe.

Candle-power, 19.1.

Annual prod., 51,902,800 c. f.

Max. day's send out, 223,500 c. f.

Total gas holder capacity, 1,000,000 c. f.

Miles of mains, approx., 63.35.

Annual sales, approx., 37,345,789 c. f.

Gas unaccounted for, 26.12 p. c.

Pop. city, 52,127; of dist. supplied, 88,283.

No. consumers and meters, 1,892.

Price gas: Light and Fuel, gross \$1.20; net \$1.10.

Ranges, 847; water heaters, 577.

No. commercial gas arc lamps, 176.

Supplies Altoona, Hollidaysburg, Juniata and Lakemont Terrace.

(Natural gas competition.)

Counties Gas and Electric Company, Main Line District, Ardmore.

RR.: Penna. Ex.: Ad.

(For capitalization, officers, etc., see Appendix.)

Manager, J. L. Mather.

Engineer, Howard Hoffman.

Purchasing agent, J. A. Pearson.

Process manufacture, Lowe.

Miles of mains, approx., 176.

Calorific value, 570 B. t. u.

Annual sales, approx., 355,829.152 c. f.

Pop. dist. supplied, 46,700.

No. consumers, 8,469.

No. meters, reg., 5,485; prepay., 2,984.

Price of gas: Light and Fuel, first 10,000 c. f., \$1.10; next 20,000 c. f., \$1; next 20,000 c. f., 90c.; over 50,000 c. f., 80c. Discount, 10c. per 1,000 c. f.

No. public lamps, 375, all Welsbachs.

Contract includes repairs, care, lighting and extinguishing.

No. hours lamp is lighted per year, 4,000.

Ranges, 8,503; heaters, 2,603; water heaters, 4,439.

No. Welsbach gas arc lamps, 244.

Supplies Overbrook, Merion, Bala, Cynwyd, Narberth, Wynnewood, Ardmore, Haverford, Bryn Mawr, Rosemont, Wayne, St. Davids, Strafford, Devon, Berwyn, Paoli, Llanerch, Malvern, Radnor, Villa Nova, Gladwyne, Oakmont, Brookline, Beechwood, Llanerch Manor, Penfield and So. Ardmore.

ELECTRICAL DEPARTMENT.

System operated: Incand., 2,300-volt, single phase; power, 2,300-volt, single and 2 phase.

Generating capacity: Lighting, 1,800 kw.

Voltage: Prim., 2,300; incand., 110-220; power, 110, 220-volt A. C.

Public lamps: Hours lighted per year, incand., 4,000.

No. public incand., 703 55 watt and 532 40 watt. Also 8-200 watt and 26-75 watt.

No. of electric meters, 4,574.

Price current per kw. hr., gross and net, 10c. to 4c.

Price of power per kw. hr., gross and net, 10c. to 2.5c.; also sliding rate, 10c. to 2c. with discount, and maximum demand power rates by contract for not less than one year.

Output of station, kw. for year, 3,044,159.

Generating power used, 1,785 kw. steam-driven generators.

Supplies electricity to Wynnewood, Ardmore, Haverford, Bryn Mawr, Rosemont, Wayne, St. Davids, Strafford, Devon, Berwyn, Paoli, Llanerch, Radnor, Villa Nova, Gladwyne, Oakmont, Brookline, Beechwood, Llanerch Manor, Penfield, South Ardmore, Newtown Square, Mellbourne, Upper Darby, Garrettford, Drexell Hill, Kirklyn and Highland Park.

Ashland Gas Light Co., Ashland.

RRs.: L. Val.; P. & R. Ex.: Am.

Capital stock, \$30,000 com.

President, Edwin C. Price.

Secretary, I. M. Wolfgang.

Treasurer, Adam Waldner.

Gen'l mgr. and pur. agt., Edwin C. Price.

Engineer, W. H. Grime.

Superintendent, Edwin C. Price.

New bus. mgr., Edwin C. Price.

Process manufacture, Oil (Janeway and Logan).

Price oil per gal., delivered, 5.75c.

Candle-power, 26.

Calorific value, 640 B. t. u.

Annual production, oil-gas, 3,000,000 c. f.

Total gas holders capacity, 18,000 c. f.

Holder pressure, 2.5 in.

Max. day's send out, 25,000 c. f.

Miles of mains, approx., 7.

Street main pressure, max., 2.75 in.; min., 2.5 in.

Annual sales, approx., 3,000,000 c. f.

Gas unaccounted for, 5 p. c.

Pop. dist. supplied, 7,500; of city, 6,855 (1910).

Consumers and meters, 210.

Price gas: Light, gross \$2; net \$1.80. Fuel, \$1.50 gross; net, \$1.35.

Ranges in use, 90; heaters, 15; water heaters, 30.

Supplies Ashland and suburbs.

Athens and Sayre Gas Co., Athens.

RR.: L. Val. Ex.: Am.

(Owned and operated by Gas Light Co. of Waverly, N. Y.)

Capital stock, \$60,000.

Bonds, \$110,000; due 1929; int., 5 p. c.

President, R. F. Page.

Sec. and treas., O. L. Haverly.

Gen. mgr. and pur. agt., O. L. Haverly.

Superintendent, O. L. Haverly.

New bus. mgr., O. L. Haverly.

Process manufacture, Lowe.

Price of coal per ton, delivered, \$5.85.

Price oil per gal., delivered, 9.4c.

Candle-power, 20.

Calorific value, 600 B. t. u.

Annual production, 43,000,000 c. f.

Gas holder capacity, 140,000 c. f.

RELIABLE COMBINATION GAS AND COAL RANGES

Have you seen them? You will be agreeably surprised at their beautiful appearance and improved and durable construction. Order that sample now.

RELIABLE STOVE COMPANY, Div. Am. Stove Co., CLEVELAND, O.

Holder pressure, 3.5 in.
Max. day's send out, 150,000 c. f.
Miles of main, approx., 25.
Street main pressures, max., 3 in.; min., 2.5 in.

High pressure mains, 4 miles; pressure, 5 lbs.
Annual sales, approx., 24,000,000 c. f.
Gas unaccounted for, 10 p. c.
Pop. cities, 10,222 (1910); dist. supplied, est., 12,000.

No. consumers, 1,321.
No. meters, reg., 1,014; prepay., 307.
Price gas: Light and Fuel, gross, \$1.50; net, \$1.35.

Gas appliances in use: Ranges, 725; heaters, 375; water heaters, 400.
No. commercial gas arc lamps in use, 60.
Supplies Athens and Sayre.

Kennett Gas Co., Avondale.

RRs.: Penna.; Phila., Balt. & Wash. Ex.: Ad.

Office, Kennett Square.
Capital stock, \$100,000.
Bonds, \$80,000; due, 1923; int., 5 p. c.
President, Andrew P. Maloney.
Vice-president, Jos. Mayer.
Secy. and treas., L. C. Ritchie.
Superintendent, James Austin.
Process manufacture, Lowe (W. Gas Cons.)
Price of coal per ton, delivered, \$4.90.
Candle-power, 22.
Gas holder capacity, 50,000 c. f.
Max. day's send out, 40,000 c. f.
High pressure mains, 8 miles; pressure, 25 lbs.
Annual sales, approx., 9,132,000 c. f.
Gas unaccounted for, 10 p. c.
Pop. dist. supplied, 8,000 (estimated).
No. consumers and meters, 525.
Price gas: Light and Fuel, \$1.50.
No. public lamps, 4; lighted 4,320 hrs.
Contract includes repairs.
Ranges in use, 400; water heaters, 50.
No. commercial gas arc lamps, 50.
Supplies Kennett Square, Avondale, West Grove and Toughkenamon.

Bangor Gas Co., Bangor.

RRs.: D., L. & W.; Le. & N. E. Ex.: Am.

Capital stock, auth., \$50,000; issued, \$40,000.

President, W. F. Jordan.
Secretary, D. M. Hambright.
Treasurer, Wm. Bray.
Gen. mgr. and pur. agt., D. M. Hambright.
Process manufacture, Lowe (oil).
Price of coal per ton, delivered, \$5.45.
Price oil per gal, 6.33c.
Candle-power, 18.
Annual production, 9,119,000 c. f.
Gas holder capacity, 25,000 c. f.
Holder pressure, max., 3 in.
Max. day's send out, 30,000 c. f.
Miles of mains, approx., 10.
Street main pressures, max., 3 in.; min., 2.5 in.
Annual sales, approx., 9,000,000 c. f.
Pop. of city, 5,369 (1910); dist. supplied, 6,000.

No. consumers, 500.
No. meters, reg., 375; prepay., 425.
Price gas: Light and Fuel, gross \$1.50; net \$1.40.
Ranges in use, 500; heaters, 200; water heaters, 100.
No. commercial gas arc lamps, 95.
Supplies Bangor.

Bellefonte Gas and Steam Heating Co., Bellefonte.

RRs.: Belle. Cen.; Cen. of Pa.; Penna. Ex.: Ad.; Am.

Capital stock, \$40,000.
President, H. Brockerhoff.
Secretary, Isaac Mitchell.
Treasurer, Charles M. McCurdy.
Process manufacture, Coal.
Candle-power, 18.
Annual sales, approx., 3,500,000 c. f.
Pop. dist. supplied, 4,145.
No. meters, 240.
Price gas: Light, net \$1.50. Fuel, \$1.35.
(Supplies also steam heat to consumers.)
State Centre Electric Co. negotiating for purchase of this property. H. I. Thompson, gen'l manager.

Berwick Gas Co., Berwick.

RRs.: D., L. & W.; Susq., Blooms. & Ber. Bridge to Nescopeck; Penna. Ex.: Ad.

Capital stock, pref., \$110,000; com., \$300,000.
Bonds, \$87,500; due 1941; int., 5 p. c.
President, Ellison Elmer.
Secretary and treas., Wm. S. J. Wetherill.
Purchasing agent, L. D. Spragle.
General manager, L. D. Spragle.
Supt. and new bus. mgr., L. D. Spragle.
Process manufacture, Lowe.
Price coal per ton, delivered, \$5.
Price of oil per gal., 4.86c.
Candle-power, 22.
Calorific value, 625 B. t. u.
Annual production, 23,000,000 c. f.
By-products made: Tar, 5,000 gals.
Gas holder capacity, 50,000 c. f.
Holder pressure, 3.5 in.
Max. day's send out, 88,000 c. f.
Miles of mains, approx., 14.
Street main pressures, max., avg. 3.5 in.
Annual sales, approx., 18,000,000 c. f.
Gas unaccounted for, 13 p. c.
Pop. dist. supplied, 8,000 (estimated); of cities, 15,000.
No. consumers, 1,322.
No. meters, reg., 822; prepay., 500.
Price gas, gross, \$1.35; net, \$1.25.
Ranges in use, 810; heaters, 171; water heaters, 159.
No. commercial gas arc lamps, 260.
Supplies Berwick, West Berwick, East and North Berwick, Nescopeck and Salem Township.

Type of oven, Semet-Solvay.

No. of ovens, 40; length, 30 ft.; width, 15 in.;
height, 8 ft.

Coke charged per oven 7½ net tons. Coke
yield, 75 p. c.

Time required for coking, 21 hrs. Grade coke
made, furnace.

Gas sold for city use, 55 p. c.; used for heat-
ing retorts, 45 p. c.

Candle-power, 5. Calorific value, 570 B. t. u.

Coke used for blast furnace and foundry.

Surplus gas delivered to city mains.

Carnegie Steel Co., Clairton.

Koppers by-product coke-ovens.

Penn Public Service Co., Clearfield.

RRs.: N. Y. C. & H. R.; B., R. & P.; Penna.
Ex.: Ad.; Am.

(For capitalization and bonds, see Appendix.)

President, F. T. Hepburn.

Vice-presidents, H. H. Weaver, J. K. Andrews.

Secretary, W. O. Hoover.

Treasurer and pur. agt., F. P. Bagley.

Asst. secretary and asst. treas., L. A. Wood.

General manager, Stephen C. Pohe.

Gen'l auditor, F. E. Haag.

Superintendent, Chas. Brohl.

Process manufacture, Coal.

Price coal per ton, delivered, \$2.80.

Candle-power, 16; cul. val., approx. 600 B. t. u.

Gas holder capacity, 50,000 c. f.

Max. day's send out, 30,000 c. f.

Miles of mains, approx., 7.

Annual sales, approx., 8,000,000 c. f.

Gas unaccounted for, 4 p. c.

Pop. dist. supplied, 3,000; of city, 6,851.

No. consumers and meters, 379.

Price gas: Light, \$1.25, with discount for
quantity.

Ranges in use, 243; water heaters, 150; hot
plates, 97; miscel. appliances, 100.

Supplies Clearfield.

Company also supplies electric, railway and
steam heating service.

Philadelphia Suburban Gas and Electric Co., Coatesville.

RRs.: Penna., P. & R. Ex.: Ad.

Controlled by the American Gas Co.

For capitalization and bonds, see Appendix.

President, Morris W. Stroud.

Vice-president, S. P. Curtis.

Secretary, W. L. Fox.

Treasurer, J. B. Townsend, 3d.

Purchasing agent, F. D. Wharton.

General manager, J. D. Shattuck.

Engineer, R. C. Cornish.

Div. mgr., N. B. Bertolette.

Process manufacture, Lowe.

Calorific value, 570 B. t. u.

Annual production, 53,398,000 c. f.

By-products made: Tar, 20,350 gals.

Gas holder capacity, 200,000 c. f.

Max. day's send out, 209,000 c. f.

Miles of mains, approx., 20.

Street main pressures, max., 4 in.; min., 2.5 in.

Annual sales, approx., 49,977,000 c. f.

Gas unaccounted for, 5.3 p. c.

Pop. of city, 11,084; of dist. supplied, 15,000.

No. consumers, 2,221.

No. meters, reg., 1,362; prepay., 859.

Price gas: Light and Fuel, 1st 10 M. c. f.,
\$1.60 gross, \$1.50 net; 2d 10 M., \$1.45
gross, \$1.35 net; 3d 10 M., \$1.35 gross,
\$1.25 net; 4th 10 M., \$1.25 gross, \$1.15
net; 5th 10 M., \$1.05 net; over 50 M., 95c.
net.

Ranges in use, 2,382; water heaters, 770.

No. commercial gas arc lamps in use, 122.

Supplies Coatesville.

Columbia Gas Co., Columbia.

RRs.: Penna.; Phila., Balt. & Wash.; P. & R.;
Conestoga Traction (El.). Ex.: Ad.; Am.

Controlled by Lancaster Gas Light & Fuel Co.

 Annual sales, approx., 77,285,900 c. f.
 Gas unaccounted for, 29.74 p. c.
 Pop. of city, 533,905; of dist. supplied, 483,905.
 No. consumers, 4,078.
 No. meters, 3,959; prepay., 119.
 Price gas: Light, gross \$1.20; net \$1.
 Supplies Pittsburg.

South Side Gas Co., Pittsburg.

(RRs., S. Bs. & Ex., see Pittsburg above.)

Capital stock, \$500,000. (Philadelphia Co. owns \$388,025 of capital stock.)
 President, J. H. Reed.
 Secretary, W. B. Carson.
 Treasurer, C. J. Braun, Jr.
 Controller, C. S. Mitchell.
 Gen. manager, J. F. Guffey.
 Superintendent, R. W. H. Young.
 New bus. mgr., S. B. Stewart.
 Gas supplied from works of the Consolidated Company of Pittsburg.
 Miles of mains, approx., 28.
 Street main pressures, max., 4 in.; min., 2.5 in.
 Candle-power, 20.

Annual sales, approx., 1,960,750 c. f.
 Gas unaccounted for, 57.32 p. c.
 Pop. of city, 533,905.
 Pop. dist. supplied, 50,000.
 No. consumers, 67.
 No. meters, reg., 63; prepay., 4.
 Price gas: Light, gross \$1.20; net \$1.
 Supplies south side of Pittsburg.

Peoples Light Co., Pittston.

RRs.: D. & H.; D., L. & W.; Erie; L. Val.; Lack. & Wyo. Vy. Ex.: Ad.; Nat.

Capital stock, \$300,000.
 Bonds, \$135,000; due 1929; interest, 5 p. c.
 President, R. J. Flick.
 Secretary and treasurer, S. Savage.
 General manager, T. J. Henshall.
 Supt. and pur. agt., T. J. Henshall.
 New bus. mgr., T. J. Henshall.
 Process manufacture, Lowe.
 Candle-power, 25.
 Max. day's send out, 350,000 c. f.
 Total gas holders capacity, 300,000 c. f.
 Miles of mains, approx., 19.
 Street main pressures, max., 3 in.; min., 2.5 in.
 Annual sales, approx., 59,000,000 c. f.
 Gas unaccounted for, 10 p. c.
 Pop. dist. supplied, 29,000; of cities, 23,115.
 No. consumers, 3,325.
 No. meters, reg., 2,295; prepay., 1,030.
 Price gas: Light and Fuel, gross, \$1.50; net, \$1.40. Disc., 10c. less than 5 M.; 25c. 5 M. and up; 35c. 50 M. up, if paid before 20th of month.
 Ranges in use, 1,475; heaters, 865; water heaters, 290.
 No. commercial gas arc lamps, 1,475.
 Supplies Pittston, West Pittston, Exeter Borough, Jenkins Township and Hughesstown Borough.

Luzerne County Gas and Electric Co., Plymouth.

RR.: D., L. & W. Ex. Ad.

(See Company's report under "Nanticoke." All gas manufactured at Nanticoke, where low pressure system is supplied direct. Low pressure systems at Plymouth and Kingston supplied through district governors from pumping line.)

Philadelphia Suburban Gas and Electric Co., Pottstown.

RRs.: Penna.; P. & R. Ex.: Ad.

Controlled by American Gas Co.
 (For capitalization, etc., see Appendix.)
 President, Morris W. Stroud.
 Vice-pres., S. P. Curtis and J. C. Lowry.
 Secretary, W. L. Fox.
 Treasurer, J. B. Townsend, 3d.
 Purchasing agent, F. D. Wharton.
 General manager, J. D. Shattuck.
 Engineer, R. C. Cornish.
 Elec. engineer, H. M. Blake.
 District mgr., A. P. McCarthy.
 Process manufacture, Lowe.
 Calorific value, 570 B. t. u.
 Annual production, 60,104,000 c. f.

The cuts at the sides show the first five million cu. ft. holder erected in the United States, over twenty years ago. This size now is the most general for large gas plants.

R. D. WOOD & CO., PHILA., PA.

By-products made: Tar, 30,402 gals.
 Gas holder capacity, 95,000 c. f.
 Max. day's send out, 264,000 c. f.
 Miles of mains, approx., 20.
 Street main pressures, max., 4 in.; min., 2.5 in.
 Annual sales, approx., 50,679,000 c. f.
 Gas unaccounted for, 14.8 p. c.
 By-products sold, Tar, 16,732 gals.
 Pop. of city, 15,599; dist. supplied, 17,000.
 No. consumers, 2,229.
 No. meters, reg., 1,956; prepay., 273.
 Price gas: Light and Fuel, first 5,000 c. f., \$1.45—\$1.35 gross, \$1.15 net; next 10,000 c. f., \$1.40—\$1.30; next 15,000 c. f., \$1.30—\$1.20; next 15,000, \$1.20—\$1.10; next 15,000, \$1 net; next 20,000 c. f., 90c.; next 40,000 c. f., 85c.; next 80,000 c. f., 80c.; over 200,000 c. f., 70c. Min. charge, 50c.

Supplies Pottstown and So. Pottstown.

ELECTRICAL DEPARTMENT.

System operated: Incand. A. C., 3 phase, 60 cycles; power, A. C., 3 phase, 60 cycles.
 Generating capacity: Lighting and power, 1,250 kw.
 Voltage: Arcs, 70; incand., 110; power, 220.
 City lighting contract: Hours lighted per year: Arc and incand., 4,000.
 No. public arcs, 115; 350 watt.
 No. public incand., 147; 80 watt.
 Commercial lighting: No. arcs, 3; No. incand., 33,000.
 Price current per kw. hr., gross, 12c. to 7c. yearly contract. Demand basis.
 Power circuits: No. motors, 231. Price per kw. hr., 10c. to 3c.
 Output of station for year, kw. hrs., 5,985,400.
 Generating power used, Steam; rated 1,400 h. p.
 Supplies Royersford, Pottstown, Stowe, Parkersford, Linfield and adjacent territory.

Pottsville Gas Co., Pottsville.

RRs.: L. Val., Penna.; P. & R. Ex.: Ad.

New bus. mgr., M. H. Spellman.
Engineer, Charles Lamphre.
Superintendent, F. N. Clark.
Process manufacture, Lowe.
Price coal per ton, delivered, \$9.
Price oil per gallon, delivered, 6.75c.
Candle-power, 18-22. Calorific value, 525 B.t.u.
Annual production, approx., 26,645,970 c. f.
By-products made: Tar, 30,000 gals.
Gas holder capacity, 112,000 c. f.
Holder pressure, max., 5.5 in.
Max. day's send out, 73,000 c. f.
Miles of mains, approx., 10.13.
Street main pressures, max., 5 in.; min., 3 in.
Annual sales, approx., 25,964,000 c. f.
Gas unaccounted for, 4 p. c.
By-products sold: Tar, 20,000 gals.
Pop. dist. supplied, 7,500; of city, 10,200.
No. consumers, 1,098.
No. meters, reg., 1,085; prepay., 13.
Price gas: Light and Fuel, gross, \$1.50;
net, Light, \$1.35; Fuel, \$1.05.

NEEDHAM HIGH PRESSURE GAS SYSTEM and APPLIANCES are sold under guarantee of definite consumption, and economy or equivalent increase in production; and will enable gas to compete commercially with other fuels.

THE NEEDHAM GAS APPLIANCE CO., 550 W. 25th St., New York, N. Y.

Ranges in use, 893; heaters, 125; water heaters, 200.

No. commercial gas arc lamps, 45.

Supplies Westerly, R. I., and Pawcatuck, Conn. Supplies also The Mystic Power Co.

ELECTRICAL DEPARTMENT.

Capital apportioned to elec. plant, approx., \$807,535.31.

System operated: Arc and incand., A. C., 3 phase, 60 cycle; power, A. C.

Generating capacity: Lighting and power, total 840 kw.

Voltage: Arcs, 75; incand., 110; power, 550.

Miles of over-head wires, 345.

City lighting contract: Arc and incand., all night schedule, 4,000 hours.

No. public arcs, 10; 40—600 watt; price per year, \$90.

No. public incand., 28—3 ft. clusters; size 100 watt (each lamp); price per year, \$54.

Also 553—60 watt; price, \$18.

Commercial lighting: No. arcs, 15.

Price current per kw. hr., gross, 12c. Disc., min., 7.72c.

Power circuits: No. motors, 210; price per h. p., 1.75c. to 6.333c. Disc., 2 p. c., 10 days.

Output of station, kw. for year, 561,929.

Electricity purchased, kw. for year, 1,359,860.

Generating power used, Diesel oil engine; rated h. p., 1,125.

Cost of station fuel oil, 6.75c. per gal.

Power purchased from Narragansett Electric Lighting Co.

Blackstone Valley Gas and Electric Co., Woonsocket.

RR.: N. Y., N. H. & H. Ex.: Ad.; E. & P.

Under management of Stone & Webster.

(For capitalization and officers see this company's report under Appendix.)

Superintendent, Forrest N. Nason.

Gas supplied under high pressure from Pawtucket Gas Co.

Candle-power, 13.8. Calorific value, 559 B. t. u.

Gas purchased, 178,517,200 c. f.

Gas holder capacity, 839,000 c. f.

Miles of mains, approx., 48.34.

High pressure mains, 12 mi.; press., 5-15 lbs.

Annual sales, approx., 165,594,100 c. f.

Gas unaccounted for, 4.8 p. c.

Pop. dist. supplied, 43,400; of city, 38,125.

No. meters, reg., 5,765; prepay., 2,084.

Price gas: Light and Fuel: \$1.20 per 1,000 for first 41,700 c. f. per month; 85c. all over.

Discount, 10c. per 1,000, 10 days.

Ranges in use, 3,730; water heaters, 538.

No. commercial gas arc lamps, 181.

Supplies Woonsocket and N. Smithfield, R. I.

ELECTRICAL DEPARTMENT.

Operated under the name of Blackstone Valley Gas & Electric Co., Pawtucket and Woonsocket Divisions.

System operated: Arcs., mun., D. C.; com., A. C. Incand., A. C. D. C.; com., single and 3 phase, 60 cycles. Power, A. C. single and 3 phase, 60 cycles.

Generating capacity, light and pwr., 23,400 kw.

Voltage, com. service: incand., 110; power, 220-550.

City lighting contract: Hours lighted per year, arcs and incand., 4,000.

No. public arcs, 460; 4 amp.

No. public incand., 140; 40 c. p.: 334, 320 watt; 1,782, 50 watt.

Commercial lighting: No. arcs, 78; incand., 7,158 kw. equiv.

Price current per kw. hr., gross: Pawtucket, 11c.; Woonsocket, 12.5c. Discounts, 1c. per kw. hr.

Power current price per kw. hr., 10c. to 3c.; discounts, none. In addition, demand rate at Pawtucket, \$3 per kw. per mo., plus 2.5c. per kw. hr., with discount 3 p. c. to 73 p. c., according to demand. Woonsocket, same, except current charge is 2.75c. per kw. hr.

Other uses: tans, iron and miscellaneous, 2,130 kw.; also supplies street railway in Woonsocket.

Output of stations, kw. hrs. for year, 68,417,000 (generated and purchased).

Generating power used, Steam and Water. Rated (steam), 31,166 and (water) 2,285 h. p.

SOUTH CAROLINA.

THE SCIENTIFIC HEATER COMPANY : : of Cleveland, Ohio

Dell Rapids City Gas and Water Works, Dell Rapids.

RR.: C., M. & St. P. Ex.: U. S.

(Municipal plant.)

Warrants outstanding, \$2,400; int., 7 p. c.

Mayor, W. H. Dockstadar.

Secretary, Jas. Riddlington.

Treasurer, Henry M. Smith.

General manager, Arthur J. Smith.

New bus. mgr., Arthur J. Smith.

Superintendent, Arthur J. Smith.

Process manufacture, Water (Tenny).

Price of coal per ton, delivered, \$6.25.

Price coke per ton, delivered, \$8.

Price oil per gal., delivered, \$4.24c.

Candle-power, 18.

Max. day's send out, 30,000 c. f.

Total gas holders capacity, 36,000 c. f.

Miles of mains, approx., 7.

Street main pressures, max., 6 in.; min., 3 in.

Annual sales, approx., 8,000,000 c. f.

Pop. dist. supplied, 1,700; of city, 1,367.

No. consumers and meters, 320.

Price gas: Light and Fuel, gross, \$1.50; net, \$1.25.

No. public incand. lamps, 50.

No. hrs. each lamp is lighted per year, 1,300.

Ranges in use, 130; heaters, 14; water heaters, 22.

No. commercial gas arc lamps, 4.

Supplies Dell Rapids.

(No 1918 report.)

Huron Light and Power Co., Huron.

RRs.: C. & No. W.; G. N. Ex.: Am.; G. N.

Capital stock, pref., \$100,000; com., \$50,000.

Annual dividends: Pref., 7 p. c.; com., 8 p. c.

Bonds, \$239,000; due 1932; int., 6 p. c.

President, A. M. Hewes.

Secretary and treasurer, Coler Campbell.

Manager and pur. agt., Frederic D. Brown.

New bus. mgr., Frederic D. Brown.

Process manufacture, Lowe.

Price coke per ton, delivered, \$12.75.

Price oil per gal., 7.75c.

Average candle-power, 22.

Calorific value, 470 B.t.u.

Max. day's send out, 70,000 c. f.

Total gas holder capacity, 40,000 c. f.

High pressure mains, 13 miles.; press., 2 lbs.

Annual sales, approx., 19,000,000 c. f.

Pop. city supplied, est., 7,000.

Consumers and meters, 1,012.

Price gas: Light and Fuel, gross, \$1.60; net, \$1.50 1st 5,000 c. f.; next 5,000 c. f., \$1.45-\$1.35; all over 10,000 c. f., \$1.30-\$1.20. Min. charge, 50c.

Ranges in use, 850; heaters, 75; water heaters, 100.

Supplies Huron.

ELECTRICAL DEPARTMENT.

System operated: A. C., 3 phase, 60 cycles; D. C., 4 amp. (street lighting).

Generating capacity: Lighting and power, 600.

Voltage: Line, 2,300; incand., 110; power, 220.

City lighting contract: Hours lighted per year, arc and incand., 3,200.

No. public arcs, 55; 4 amp. mag. Price per year, \$85.

No. ornamental standards, 5 lights, 59. Price, per year, \$35. Also 22 standards, 1 light, 200 watt; price \$24.

Commercial lighting: No. arcs, 50; No. incandescents, 8,000.

Price current per kw. hr., 13.5c. to 6c. Disc., 1c. per kw. hr.

Other lamps used, 1 Cooper-Hewitt; 3 moving-picture arcs.

Power circuits: No. motors, 63; price per kw. hr., 6c., 1 h. p. or over. Min. charge, \$1 per h. p. per mo.

Output of station, kw. hrs. for year, 1,055,857. and Diesel engine, 360 h. p.

Generating power used, Gas; rated h. p., 500.

Cost of producer coal per ton, \$10.

Mitchell Power Co., Mitchell.

RRs.: C. & No. W.; C., M. & St. P. Ex.: Am.

Controlled by the Light & Development Co., of St. Louis, Mo.

Capital stock, auth., \$500,000; issued, \$500,000.

Bonds, \$260,000; due 1928; int., 6 p. c.

President, Hugo Wurdack.

Secretary, T. J. Spangler.

Treasurer, Horace W. Beck.

Manager, E. J. Sherwood.

Pur. agents, Lt. & Develop. Co.

Supt. and mgr., E. J. Sherwood.

Process manufacture, Lowe.

Price coke per ton, delivered, \$7.80.

Price oil per gal., delivered, 6.1c.

Candle-power, 20.

Calorific value, 600 B. t. u.

Annual production, 19,847,000 c. f.

Gas holder capacity, 30,000 c. f.

Holder pressure, 3 in.

Max. day's send out, 78,000 c. f.

High pressure mains, miles, 14.

Pressure, 3 to 12 lbs.

Annual sales, approx., 17,000,000 c. f.

Gas unaccounted for, 13.5 p. c.

Pop. of city, 7,500; of dist. supplied, 5,500.

No. consumers, 952.

No. meters, reg., 634; prepay., 330.

Price gas: Light and Fuel, gross, \$1.75; net, \$1.65.

No. ranges, 950; water heaters, 58; heaters, 65.

No. commercial gas arc lamps, 6.

Supplies Mitchell.

ELECTRICAL DEPARTMENT.

System operated: Arcs, D. C.; incand., A. C., 1-phase, 60 cycles; power, A. C., 3-phase, 60 cycles.

Generating capacity: Lighting and power, 600 kw.

Voltage: Arcs, 75; incand., 110; power, 220.

City lighting contract: Hours lighted per year, 4,000.

No. public arcs, 81; 325 watt. Price per year, \$60.

No. public incand., 238; 60-100 watt Mazdas. Price per year, \$27.

No. commercial incand., 18,000.

Commercial lighting: Price current per kw. hr., gross, 10c.

MacDONALD-MANN COKE QUENCHING CHUTES quench the coke in water-sealed bins using a minimum of water, and producing hard silver gray coke with very little breeze. Write for Catalogue N15-3.

C. W. HUNT CO., INC., Main Office and Works, WEST NEW BRIGHTON, N. Y.

Power circuits: Motors, 316 h. p. Price per kw. hr., 6c.
Output of station, kw. hrs. for year, 1,238,352
Generating power used, Steam and Oil; rated 550 h. p.
Cost of station boiler coal, per ton, \$4.77.

Rapid City Gas Light Co., Rapid City.

RRs.: C. & No. W.; C., M. & St. P.; Mo. Riv. & No. W. Ex.: Am.

 Supplies Watertown.

ELECTRICAL DEPARTMENT.

System operated; Arc, D. C.; incand., A. C., single phase, 7,200 alt.; power, A. C., 3 phase, 7,200 alt.
 Generating capacity: Lighting and power, 300 kw. Water power; over 1,200 kw., purchased.
 Voltage: Arcs, 75; incand., 120; power, 240.
 Miles of overhead wires, 146.
 City lighting contract: Hours lighted per year, arcs and incand., 4,000.
 No. public arcs, 166; 4 amp. mag. Price per year, \$60.
 No. public incand., 20; 80 c. p. Price per year, \$30.
 Price current per kw. hr., gross, 12c.; sliding scale to 2c. Disc. 5 p. c. on 1st \$25; 1 p. c. on all over.
 Power circuits: Motors, 1,100 kw.; price per kw. hr., 6c., max., sliding scale to 2c. Also demand schedules with lower rates possible. Disc., 5 p. c. on first \$25; 1 p. c. on all over.
 Output of station kw. hrs. for year, 25,000,000.
 Generating power used, Water; rated 300 kw. (Energy also purchased from Milwaukee Light, Heat & Traction Co.)

Waukesha Gas and Electric Co., Waukesha.

RRs.: C. & No. W.; C., M. & St. P.; Wis. Cen. Ex.: Am.; Nat.; W. F.

Operated by The American Gas Co.
 Capital stock, \$100,000.
 Bonds, \$485,000; due 1959; int., 5 p. c.
 President, A. J. Frame.
 Vice-president, M. W. Stroud.
 Secretary, C. W. Newberry.
 Treasurer, J. B. Townsend, 3d.
 Gen. mgr., S. P. Curtis, Philadelphia, Pa.
 Pur. agt., F. D. Wharton.
 Engineer, R. C. Cornish.
 Elec. engineer, H. M. Blake.
 Manager, G. W. Boteler.
 Process manufacture, Coal.
 Calorific value, 600 B. t. u.
 Annual production, 85,814,000 c. f.
 By-products made: Coke, 5,729 tons; tar, 102,803 gals.

Max. day's send out, 334,300 c. f.
 Total gas holder capacity, 300,000 c. f.
 Miles of mains, approx., 27.
 Street main pressure, max., 4 in.; min., 2.5 in.
 High pressure mains, 1 mile.
 Annual sales, approx., 76,290,000 c. f.
 Gas unaccounted for, 10.8 p. c.
 By-products sold: Coke, 5,176 tons; tar, 96,921 gals.
 Pop. dist. supplied, 10,000; of city, 8,740 (1910).
 No. consumers, 2,215.
 No. meters, reg., 1,637; prepay., 578.
 Price gas: Light and Fuel, net, 1st 10,000, \$1.35; next 15,000, \$1.15; next 25,000, \$1.05; next 50,000, 95c.; all over 100,000, 80c.; over 200,000 c. f., 70c. Min. charge for 3 ft. or 5 ft. meters, 40c.
 Ranges in use, 2,102; water heaters, 203.
 No. commercial gas arc lamps, 225.
 Supplies Waukesha.

ELECTRICAL DEPARTMENT.

System operated: Incand., A. C., 3 phase, 60 cycle; power, A. C., 3 phase, 60 cycle.
 Generating capacity: Lighting and power, 3,000 kw.
 Voltage: Arcs, 70; incand., 110; power, 220.
 City lighting contract: Hours lighted per year: Arc, 4,000. Incand., 4,000.
 No. public arcs, 138; 500 watt.
 No. public incand., 8, 25 c. p.; 83, 80 c. p.
 Series nitrogen, 200; 46 c. p.
 Commercial lighting: No. incand., 21,000 (incl. 77 nitrogen lamps).
 Price current per kw. hr., gross, 13c., sliding scale, to 7c. Disc., 1c. per kw. hr.
 Power circuits: No. motors, 412.
 Power, price per kw. hr., 3.5c.; disc., 1c. per kw. hr.; charge of 75c. per active h. p.
 Output of station, kw. hr. for year, 5,365,700.
 Generating power used, Steam; rated h. p., 1,150.

Wausau Gas Co., Wausau.

RRs.: C. & No. W.; C., M. & St. P. Ex.: Am.; W. F.

Operated by Gas & Electric Improvement Co., Chicago.
 Capital stock, \$200,000.
 Bonds, \$162,000; due 1925; int., 5 p. c.; and \$60,000; due 1925; int., 6 p. c.
 President, E. C. Beach.
 Vice-Pres., Geo. F. Goodnow.
 Secretary, C. V. Clark.
 Treasurer, E. C. Beach.
 Manager and pur. agt., H. H. Wilson.
 New bus. mgr., H. H. Wilson.
 Superintendent, H. H. Wilson.
 Process manufacture, Coal.
 Price coal per ton, delivered, \$7.
 Candle-power, 16; calorific value, 615 B. t. u.
 Max. day's send out, 115,000 c. f.
 Total gas holder capacity, 175,000 c. f.

The Importance of High Percent CO₂ in Boiler Flue Gases will be furnished free by mentioning this book.

PRECISION INSTRUMENT COMPANY : : : : DETROIT, MICHIGAN

Miles of mains, approx., 27.
 Street main pressures, max., 4 in.; min., 2.5 in.
 High press. mains, miles, 2; pressure, 15 lbs.
 Annual sales, approx., 34,300,000 c. f.
 Gas unaccounted for, 10 p. c.
 Pop. city supplied, 16,560.
 No. consumers, 2,189.
 No. meters, reg., 1,914; prepay., 275.

 Price of coal per ton, delivered, \$10.50; oil per gal., 12c.
 Calorific value, 571 B. t. u.
 Annual production, 165,155,000 c. f.
 Gas holder capacity, 621,000 c. f.
 Holder pressure, 8 in.
 Max. day's send out, 612,200 c. f.
 Miles of mains, approx., 49.58.
 Street main pressures, max., 4 in.; min., 2.5 in.
 Annual sales, approx., 148,335,000 c. f.

**Tycos Temperature Instruments**

are designed for every purpose. Let us work with you on your temperature, indicating, controlling, and recording problems to secure the results you should have. Over half a century of Tycos experience will thus be at your disposal. Write for Catalogue 600.

Taylor Instrument Companies ®

Rochester, N. Y.

Gas unaccounted for, 10.78 p. c.
 Pop. of city, 100,000; of dist. supplied, 100,000.
 No. of consumers, 6,163.
 No. meters, reg., 4,337.; prepay., 2,000.
 Price gas: Light and Fuel, gross, \$1.50; net, \$1.
 Supplies Quebec.

ELECTRICAL DEPARTMENT.

System, A. C., 2 phase, 60 cycles.
 Generating capacity: Lighting and power, 7,500 kw.
 Voltage: Incand., 104; power, 550.
 Miles of over-head wires, 165; under-ground cables, 3 miles.
 Commercial lighting: No. arcs, 250; No. incand., 163,268—16 c. p. equiv.
 Price current per kw. hr., gross, 10c. Disc., 30 to 60 p. c.
 Power circuits: Motors, 7,193 h. p.
 Price per kw. hr., 3c. to 0.5c. and fixed charge of \$1 per h. p.
 Output of station, kw. hrs. for year 14,756,511.
 Generating power used, Water; rated h. p., 12,000.
 Power also purchased from The Laurentian Power Co.

La Cie de Gaz, Electricite et Pouvoir, St. Hyacinthe.
 RRs.: Gr. Trunk; Can.-Pac.; Inter-colonial;
 Que., Mont. & So. Ex.: Can.; Dom.

Controlled by Southern Canada Power Co., Ltd., Montreal, Que.
 Capital stock, \$115,000 issued.
 Bonds, \$24,000; due serially: interest, 5 p. c.
 President, H. T. Chalifoux.
 Secretary, L. C. Haskell.
 Treasurer, L. C. Haskell.
 Purchasing agent, L. C. Haskell.
 Superintendent, G. Pominville.
 Process manufacture, Lowe (Granger).
 Supplies St. Joseph and La Providence.

ELECTRICAL DEPARTMENT.

System operated: A. C., 3 phase, 7,200 alt., 60 cycle.
 Generating capacity: Lighting and power, 400 kw.
 Voltage: Incand., 104; power, 550.
 Output of station, kw. for year, 700,000.
 Generating power used, Steam; rated h. p., 300; Water, 600.
 Balance of power purchased from Southern Canada Power Co., Ltd.

City Gas and Electric Dept., Sherbrooke.

RRs.: Bos. & Me.; Que. Cen.; Gr. Trunk; Can. Pac. Ex.: Can.; Dom.; Am.

(Municipal plant.)

Bonds, \$50,000; due 1923-33; int., 5 p. c.
 Chairman, W. Brault.
 Gen'l mgr. and engineer, C. J. Desbaillets.
 Secretary, B. A. Dugal.
 Treasurer, E. C. Gateen.
 Superintendent, J. R. McGregor.
 Pur agent, H. C. King.
 Process manufacture, Lowe.
 Price coal per ton, delivered, \$11 to \$14.
 Price oil per gal., delivered, 14c.
 Calorific value, 600 B. t. u.

Annual prod., 40,000,000 c. f.
 Gas holder capacity, 230,000 c. f.
 Holder pressure, 7 in.
 Max. day's send out, 115,000 c. f.
 Miles of mains, approx., 25.
 Street main pressure, max., 6 in.; min., 3 in.
 Annual sales, approx., 40,000,000 c. f.
 Gas unaccounted for, 10 p. c.
 Pop. city supplied, 25,000.
 No. consumers, 1,300.
 No. meters, reg., 1,200; prepay., 100.
 Price gas: Light and Fuel, net, \$1.50.
 No. ranges in use, 1,300; heaters, 150; water-heaters, 300.
 Supplies Sherbrooke.

ELECTRICAL DEPARTMENT.

System operated: A. C., 3 phase, 60 cycles.
 Generating capacity: Lighting, 1,200 kw.; power, 2,800 kw.
 Voltage: Incand., 110; power, 440.
 City lighting contract: Hours lighted, all night and every night, 4,200 hrs.
 No. public incand., 1,450; 50-75 watt; 1400-100 watt. Price per year, \$10,000 (for all.)
 Commercial lighting: No. incand., 50,000.
 Price current per kw. hr., gross, 6c., commercial. Disc. 10c., 10 days.
 Power circuits: No. motors, 250.
 Price current per kw. hr., 1c.
 Other uses, electric furnaces.
 Output of station, kw. for year, 15,000,000.
 Generating power used, Water; rated h. p., 5,000.

Gas Dept. Corporation of Sorel, Sorel.

RRs.: Que., Mont. & So.; Rich. & O. Nav. Co.; St. L. Can. Nav. Ex.: Can.; Dom.

(Municipal plant.)

Chairman lighting com., Narc. Robillard.
 Secretary, A. O. Cartier (City Clerk).
 Treasurer, J. A. G. Paulet (City Treasurer).

 Superintendent, G. U. Gregoire.
 Process manufacture, Coal.
 Price coal per ton, delivered, \$13.
 Candle-power, 17.
 Annual production, 6,300,000 c. f.
 By-products made: Coke, 200 tons; tar, 6,110 gallons.
 Gas holder capacity, 20,000 c. f.
 Holder pressure, 3 in.
 Max. day's send out, 25,000 c. f.
 Miles of mains, approx., 5; pressure, 3 in. max., 2.5 in. min.
 High pressure mains, 2.5 miles; pressure, 3 lbs.
 Annual sales, approx., 4,600,000 c. f.
 Gas unaccounted for, 28 p. c.
 By-products sold: Coke, 120 tons; tar, 6,110 gallons.
 Pop. of city supplied, 9,229.
 No. consumers, 400.
 No. meters, reg., 250; prepay., 150.
 Price gas: Light and Fuel, gross, \$2.50; net, \$2.
 Ranges in use, 400; heaters, 25; water heaters, 50.
 Supplies Sorel.

Williams' "Vulcan" Chain Pipe Vise

Portable—Broadly Adjustable—Attachable Anywhere

J. H. WILLIAMS, 74 Richards St., Brooklyn, N. Y.

MEXICO

Compania de Gas de Guadalajara, Guadalajara, Jalisco.

Controlled by The W. F. Boardman Co.
(Company non-operating.)

Mexican National Gas Co., Mexico, Federal District.

General office, Security Bldg., Los Angeles, Cal.

Capital stock, pref. auth., \$500,000; issued, \$255,100; common, auth., \$2,000,000; issued, \$1,334,900.

Bonds, \$595,100; due 1960; int., 6 p. c.

President, E. L. Doheny.

Secretary, O. D. Bennett.

Treasurer, Norman Bridge.

General manager, Neil D. McPhail.

Process manufacture, Oil.

Miles of mains, approx., 75.

Gas holder capacity, 600,000 c. f.

Pop. of city, 450,000.

Plant not in operation.

Monterey Railway, Light and Power Co., Monterrey, Nuevo Leon.

President, Sir Wm. Mackenzie.

General manager, Lewis Lukes, Toronto, Canada.

Process manufacture: Coal.

Price coal per ton, delivered, \$18 (Mex.).

Candle-power, 17; calorific value, 600 B. t. u.

Annual production, 5,872,010 c. f.

Gas holder capacity, 100,000 c. f.

Holder pressure, 6 in.

Miles of mains, approx., 11.5.

High pressure mains, miles, 12; pressure, 5 lbs.

Street main pressures, max., 5 in.; min., 3.5 in.

Max. day's send out, 36,700 c. f.

Annual sales, approx., 5,367,915 c. f.

Gas unaccounted for, 8 p. c.

Pop. of city, 81,000; of dist. supplied, 50,000.

No. consumers, 162; meters, 175.

Price of gas: 10c. and 8c. Mex. per cubic metre.

Gas appliances in use: Ranges, 149; heaters, 60; water heaters, 52.

No. commercial gas arc lamps in use, 12.

Supplies Monterrey.

ELECTRICAL DEPARTMENT

System operated: incand. and power, A. C., 3 phase, 60 cycle.

Generating capacity: Lighting and power, 2,500 kw.

Voltage: Incand., 110; power, 110-220.

City lighting contract: Hours lighted per year, incand., 3,600.

No. public incand., 1,527; 50 watt. Price per year, \$29.79.

Commercial lighting: No. incand., 13,464; 50 watt equiv.

Price current per kw. hr., gross, 20c. Mex., and a flat rate of from 0.5c. to 1.5c. per c. p.

Power circuits: No. motors, 205.

Power price, 2.5c. to 9.3c. Mex.

Output of station, kw. hrs. per year, 336,242.

Generating power used, Steam; rated 4,000 h. p.

Arizona Gas and Electric Co., Nogales.

(See report under Nogales, Ariz.)

United Gas and Electric Improvement Co., Merida, Yucatan.

Capital stock, \$125,000.

President, H. H. Barnes, 66 Broadway, New York.

Secretary, Herbert Richmond.

Treasurer, H. H. Barnes, 66 Broadway, New York.

Process manufacture, Lowe.

Price coal per ton, delivered, \$16 gold.

Price oil per gallon, delivered, 17c. gold.

Candle-power, 18.

Max. day's send out, 35,000 c. f.

Gas holder capacity, 40,000 c. f.

Miles of mains, approx., 15.

Street main pressure, max., 2.5 in.

Annual sales, approx., 8,000,000 c. f.

Gas unaccounted for, 2.5 p. c.

Pop. dist. supplied, 65,000.

No. meters in service, 600.

Price gas: Light and Fuel, net \$4.

No. public lamps, 100 Welsbachs; hours lighted, 3,000.

Price per year, \$50.

Price includes repairs, care, lighting and extinguishing.

No. ranges, 50; water heaters, 25.

Supplies Merida, Yucatan.

(No 1918 report.)

NEWFOUNDLAND

St. John's Gas Light Co., St. John's.

Capital stock auth., \$250,000; issued, \$160,000.

CALORIMETERS**American Meter Company**

561 W. 47th St., New York, N. Y.

The American-Junkers' Calorimeter has been greatly improved and accessories added until it has been made what we consider the most advanced type of instrument for this purpose now in use. This is confirmed by the numerous orders we are constantly receiving for it from all parts of the country and that it has been furnished to all the large syndicates, State Public Utilities Commissions and the City Gas Inspectors, the Public Utilities Commission at Washington, D. C., the U. S. Bureau of Standards, and the U. S. Department of War.

 Purchasing agent, P. Ziegenfuss.

**THE SCIENTIFIC SAFETY GARAGE HEATER**

The Standard with ALL FIRE PREVENTION BOARDS.

Because it's the only safe and fool-proof garage heater made.

THE SCIENTIFIC HEATER COMPANY : : of Cleveland, Ohio

Engineers, Light and Development Co., St. Louis, Mo.
 Population city, 10,500; dist. supplied, 9,000.
 Obtain supply from Kansas Natural Gas Co.
 Miles pipe line, 32.
 High pressure mains, 7 miles; pressure, 6 lbs.
 No. domestic consumers, 1,820; manufactories supplied, 75.
 Price gas, gross, domestic, 33c; net 30c. per 1,000 c. f.; industrial, 12.5c.
 No. ranges in use, 800; heaters, 950; water heaters, 100.
 Value of gas supplied, for year, \$74,884.85.
 Supplies Fort Scott.

ELECTRICAL DEPARTMENT.

System operated: Arc, D. C.; incand., A. C., 60 cycle; power, A. C.
 Generating capacity: Lighting, 1,000 kw.
 Voltage: Primary, 2,300, at arc, 80; incand., 110; power, 220.
 City lighting contract: Hours lighted per year: Arc, 2,700.
 No. public arcs, 160. Price per year, \$60.
 Price current per kw. hr., gross, 12.5c. to 2 cts. Discounts, 20 p. c.
 Power circuits: No. motors, 100. Price per kw. hr., 8c. to 2c. Disc., 20 p. c.
 Generating power used, Steam; rated h. p., 1,250.
 Output of station, kw. hrs., total for year, 1,080,000.
 Cost of station slack, per ton, \$1.85, on track.

Excelsior Brick Co., Fredonia.

Capital stock, \$30,000.
 President, J. M. Kennedy.
 Manager and pur. agent, J. D. Lingenfelter.
 Wells drawn from, 12. Miles of pipe line, 7.
 Annual prod., 240,000,000 c. f.
 Gas used in Co's. manufacturing plant.

The Fredonia Gas Co., Fredonia.

Capital stock, \$100,000.
 Annual dividend, 8 p. c.
 President, B. E. La Dow.
 Manager, C. V. La Dow.
 Purchasing agt. C. V. La Dow.
 Wells drawn from, 40.
 Miles of pipe line, 40.
 Pop. district supplied, 6,000.
 No. domestic consumers, 1,350; manufactories supplied, 4.
 Price of gas, gross, domestic, 25c. per 1,000 c. f.; disc., 10 p. c.; industrial, 10c. to 15c. per 1,000 c. f.
 Value of gas supplied, for year, \$85,000.
 Supplies Fredonia, New Albany and Fall River.

American Gas Co., Galena.

Capital stock, \$195,000.
 President, P. V. Byrnes.
 Manager, A. Byrnes.
 Pur. agent, P. V. Byrnes.
 (Purchase gas from Kansas Natural Gas Co.)
 Gas purchased, 356,734,000 c. f.
 Miles of pipe line, 66.
 Gas purchased, approx., 413,295,000 c. f.
 Pop. dist. supplied, 17,000.
 No. domestic consumers, 2,858; factories, 35.

Price of gas, gross, domestic, and industrial, 30c. net in Galena, Oswego, Columbus and Altamont; 32c. net in Cherokee and Scammon.

Value of gas supplied, for year, \$114,831.46.
 Supplies Galena, Oswego, Columbus, Altamont, Cherokee, and Scammon, Kansas.

Gardner Gas Co., Gardner.

General office, 1,116 Commerce Bldg.
 Capital stock, \$20,000.
 Bonds \$6,000; int. 6 p. c.
 President, C. A. Loomis.

 Gas purchased from Kansas Natural Gas Co.
 Price of gas, gross; domestic, 60c. per 1,000 c. f.
 No. domestic consumers, 210.
 Value of gas supplied, for year, \$7,311.49.
 Supplies Gardner.

The Garnett Light and Fuel Co., Garnett.

Capital stock, \$80,000.
 President, A. L. Derby.
 Treasurer, Geo. W. Lyndale.
 Secretary and pur. agent, Gail Carey.
 Manager, A. L. Derby.
 Purchasing agent, A. L. Derby.
 3,500 acres leased in Garnett and vicinity.
 Wells drawn from, 20. Miles pipe line, 35.
 Pop. dist. supplied, 3,000.
 No. domestic consumers, 875.
 Price gas, gross, domestic, 30c. per 1,000 c. f.
 Supplies Garnett and vicinity.

Greeley Gas Co., Greeley.

Capital stock \$10,000.
 President, C. S. Powers.
 Manager, L. D. Gehr.
 Pur. agent, C. S. Powers.
 Wells drawn from, 11. Miles of pipe line, 6.5.
 Price of gas, gross, domestic, 30c. per 1,000 c. f.
 No. domestic consumers, 165.
 Value of gas supplied, for year, \$2,000.
 Supplies Greeley.

Humboldt Brick Mfg. Co., Humboldt.

Capital stock, \$82,275.
 Annual dividend, 15 p. c.
 President, E. H. Leitzbach.
 Treasurer, W. A. Bydley.
 Manager and pur. agent, J. J. Amos.
 Acres owned 200; acres leased 5,000. Field in Allen and Woodson Counties, Kan.
 Wells drawn from, 14. Miles pipe line, 20.
 Well pressures, 125 to 250 lbs.
 Pop. dist. supplied, 5,000.
 No. domestic consumers, 50; factories, 7.
 Price gas, gross, domestic, 25c. per 1,000 c. f.; industrial, 15c. to 20c.
 Value of gas supplied, for year, \$80,000.
 Supplies Humboldt in part.

Humboldt Gas Co., Humboldt.

Capital stock, issued, \$50,000.
 Annual div., 10 p. c.
 President, L. W. Young, Jr.
 Manager and pur. agent, L. W. Young, Sr.

HUNT INDUSTRIAL RAILWAYS for handling coal are built in a variety of special forms, for side or bottom dumping, or for emptying with minimum labor with shovels. Standard designs of cars, track, curves, switches, etc., can be shipped from stock. Write for Catalogue N16-2.

C. W. HUNT CO., INC., Main Office and Works, WEST NEW BRIGHTON, N. Y.

Wells drawn from, 20. Miles pipe line, 20.
Annual production, 3,000,000 c. f.
No. dom. consumers, 625; manufactories, 2.
Price gas, dom., 25 cts. per 1,000 c. f.;
industrial, 10c. per 1,000 c. f.
Value of gas supplied, for year, \$28,000.
Supplies Humboldt.

Hutchinson Gas and Fuel Co., Hutchinson.

Controlled by Southwestern Power & Lt. Co.
Manager, Samuel Mountain.
(Purchase gas from the Wichita Natural Gas
Co.)
Amount gas purchased, 577,990,000 c. f.
Miles of pipe line, 50.2.
Price of gas, gross, domestic, 30c.; industrial,

 Price current per kw. hr., Light, basic rate, net 9.9c. to 2.7c.
 Other lamps used, 1,000 watt, nitrogen on com. circuits.
 Power circuits: No. motors, 101; price per kw. hr., basic rate, 4.5c. to 1.8c.
 Other uses, 734 fan motors; 1,127 elec. irons and appliances; 36 elec. signs; 16 street arches with 240-40 watt lamps.
 Output of station, kw. for year, 1,380,395.
 Generating power used, Steam; rated h. p., 770.

Oklahoma Gas and Electric Co., Enid.

Controlled by Standard Gas & Electric Co., both companies being under management of H. M. Byllesby & Co., Chicago. (For capitalization, bonds, etc., see Appendix.)
 President, H. M. Byllesby.
 Vice-pres. (oper.) W. R. Molinard.
 Gen. manager, J. F. Owens.
 Gen'l auditor, W. R. Emerson.
 Chief acct. and pur. agent, H. Willmering.
 Superintendent, C. E. Rentchler.
 Pop. dist. supplied, 13,500.
 Miles of mains, 50.88.
 Annual prod., (7 mos.), 380,095,000 c. f.; (Natural gas since June, 1916.)
 No. consumers, 2,385.
 Price gas gross, dom., 38c.; net 35c.
 Ranges, 2,050; heaters, 2,199; water heaters, 426.
 No. commercial gas arc lamps, 22.
 Supplies Enid.

ELECTRICAL DEPARTMENT.

System operated: Arc and incand., A. C.; power, A. C., single and 3 phase.
 Generating capacity: Lighting and power, 1,500 kw.
 Voltage: Arcs, 72; incand., 110; power, 220-2,300.
 City lighting contract: Hours lighted per year: Arc, 3,850; incand., 3,850.

No. public arcs, 141; 7.5 amp. Price per year, \$66.
 No. public incand., 174; 40 watt, price per year, \$9.
 6 alley lights, 100 watt, price per year, \$21.
 Commercial lighting: No. arcs, 41. No. incand., 29,843.
 Price current per kw. hr., gross, 11c. to 3.5c.; disc., 10 p. c.
 Other lamps used, 5,257 in signs.
 Power circuits: No. motors, 234; price per kw. hr., 6c. to 2c.; disc., 10 p. c.
 Other uses, 1,816 flat irons; 507 other appliances. Consumers, 2,435.
 Output of station, kw. for year, 2,104,655.
 Generating power used, Steam; rated h. p., 1,235.
 Cost of station boiler fuel, gas, per 1,000 c. f., 10.3c.
 Also supplies local street railway company with power.

Whitewater Oil and Gas Co., Gotebo.

Capital stock, \$500,000.
 President, R. G. Kirkwood.
 Manager, W. D. Bagget.
 Purchasing agent, M. F. Pierce.
 Wells drawn from, 6. Miles of pipe line, 5.
 Annual prod., 1,496,000 c. f.
 Price of gas, domestic, 75c. to 30c. per 1,000 c. f.
 No. domestic consumers, 90.
 Value gas supplied, for year, \$966.55
 Supplies Gotebo.

Guthrie Gas Light, Fuel and Improvement Co., Guthrie.

Capital stock, \$250,000.
 President, M. B. Madden.
 Vice-pres., mgr. and pur. agt., W. J. Dibbens.
 No. domestic consumers, 2,400.
 Manufactories supplied, 17.
 Price gas: domestic, gross, 25c. per 1,000 c. f.; industrial, 15c. and 10c.
 Value gas supplied, for year, \$123,000.
 Distributing company for Oklahoma Natural Gas Co.
 Supplies Guthrie.

Smith and Swan, Henryetta.

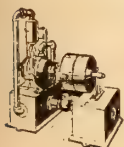

(A partnership.)
 Manager and pur. agent, J. B. Swan.
 Wells drawn from, 4.
 Gas purchased.
 No. dom. consumers, 550; manufactories, 3.
 Price gas, gross, domestic, 25c. per 1,000 c. f.; industrial, 10c.
 Value of gas supplied, for year, \$12,000.
 Supplies Henryetta.

Harris Oil and Gas Co., Hominy.

Capital stock, \$20,000.
 President, P. H. Harris.
 Sec'y and treas., Carl Mullendore.
 Gen'l mgr. and pur. agent, Carl Mullendore.
 Superintendent, W. M. Randolph.
 Gas wells drawn from, 1.
 Well pressure, 325 lbs.
 Miles of gas pipe line, 2.

Hominy Light and Gas Co., Hominy.

Capital stock, \$25,000.
 Annual dividend, 10 p. c.
 Bonds, \$13,000; due, 1919; int., 6 p. c.
 President, L. D. Edgington.

YOUR GREATEST ASSET IN SELLING INDUSTRIAL

GAS. The Efficiency of the NEEDHAM HIGH PRESSURE GAS SYSTEM is now holding many of the largest industrial gas consumers where earlier experiences with less efficient methods were compelling them to consider other fuels.

THE NEEDHAM GAS APPLIANCE CO., 550 W. 25th St., New York, N. Y.

Vice pres. and pur. agt., Carl Mullendore.
 Secretary and treas., Carl Mullendore.
 Manager, Carl Mullendore.
 Field, seven miles northwest of Hominy.
 Gas wells drawn from, 8.
 Miles of pipe line, 7.
 Gas purchased, 161,600,700 c. f.
 Pop. dist. supplied, 2,000.
 No. domestic consumers, 417; factories, 11.
 Price gas, gross, domestic, 27c.; discount, 2c.
 industrial, 7c., 8c. and 10c.
 Value of gas supplied, for year, \$26,556.77.
 Supplies Hominy.

Jennings Gas Co., Jennings.

Capital stock, \$10,000.
 President, M. C. Nelson.
 Manager and supt., E. L. Clark.
 Secy., treas. and pur. agent, M. A. Liscum.
 Wells drawn from, 2 gas.
 Well pressure, 700 lbs.
 Miles of pipe line, 8.
 Annual prod., gas, 1,000,000 c. f. per day.
 Gas purchased, 365,000,000 c. f.
 Pop. dist. supplied, 1,800.
 No. dom. consumers, 235; factories, 11.
 Price gas gross, dom., 25c. per 1,000 c. f.;
 industrial, 8c.
 Value of gas supplied for year, \$300,000.
 Supplies Jennings.

Kiefer Light and Fuel Co., Kiefer.

(No report.)

Lawton Natural Gas Co., Lawton.

Capital stock, common, \$100,000.
 President, E. E. Shipley.
 Purchasing agt. and mgr., F. M. Marple.
 Wells drawn from, 2.
 Miles pipe line, 13.
 Price of gas, gross, domestic, 35c.
 No. domestic consumers, 300.
 Value gas supplied, for year, \$8,500.
 Supplies part of Lawton.

Southwestern Oklahoma Gas and Fuel Co., Lawton.

(Operated by the Doherty Organization.)
 Capital stock, \$500,000.
 President, J. C. McDowell.
 Vice-pres., A. J. Diescher.
 Secretary, C. E. Murray.
 Treasurer, R. C. Russell.
 Manager, E. E. Yingling.
 Miles of pipe line, 18.
 Sells to Western Oklahoma Gas and Fuel Co.

Choctaw Natural Gas Co., McAlester.

Capital stock, \$150,000.
 Bonds, \$150,000; due, 1928; int., 6 p. c.
 President, Wm. Bertles.
 Secretary and treas., F. A. Willard.
 Manager and pur. agent, F. A. Willard.
 Superintendent, T. H. Veith.
 Acres leased, 8,000; in Pittsburg Co., Okla.
 Wells drawn from, 14.
 Well pressures, 600 lbs.
 Miles pipe line, 33.
 Annual prod., 1,825,000,000 c. f.
 Gas purchased, 1,000,000,000 c. f.
 Pop. dist. supplied, 20,000.
 No. dom. consumers, 2,000; factories, 20.

Price of gas gross, dom., 35c.; industrial,
 sliding scale.
 Value gas supplied for year, \$111,888.58.
 Supplies McAlester (through McAlester Gas
 and Coke Co.) Quinton and Featherstone,
 Okla.

McAlester Gas and Coke Co., McAlester.

Controlled by Howe, Snow, Corrigan &
 Bertles, Grand Rapids, Mich.
 Capital stock, pref. auth., \$500,000; issued,
 \$75,000; com. auth. and issued, \$250,000.
 Annual dividend, pref., 6 p. c.
 Bonds, \$125,000; due 1937; int., 6 p. c.
 President, Burton A. Howe.
 Secretary, Wm. M. Bertles.
 Treasurer, Warren H. Snow.
 Engineer, F. A. Willard.
 Gen'l mgr. and pur. agent, F. A. Willard.
 Supt. and new bus. mgr., T. Veith.
 Gas purchased from Choctaw Natural Gas Co.
 High pressure mains, 35 miles; pressure, 20
 lbs. max.; 10 lbs. min.
 Pop. city, 12,954; dist. supplied, 15,000.
 No. consumers and meters, 1,400.
 Price gas: Light and fuel, gross, 35c. Disc.
 10 p. c.
 Supplies McAlester and North McAlester.

Consumers' Gas Co., Miami.

(See report under Bartlesville, Okla.)

Bellevue Gas and Oil Co., Mounds.

General office, Henryetta, Okla.
 Capital stock, \$10,000.
 President, John Smith.
 Manager, John Smith.
 Pur. agent, J. W. Swan.
 Treasurer, L. A. Wheeler.
 Wells drawn from, 3. Miles pipe line, 3.
 Annual production, 20,000,000 c. f.
 Gas purchased, 50,000,000 c. f.
 No. domestic consumers, 200.
 Price gas, gross, domestic, 25c. per 1,000 c. f.
 industrial, 10c.
 Value of gas supplied, for year, \$5,500.
 Supplies Mounds.

Boynton Oil, Gas and Fuel Co., Muskogee.

(See report under Boynton.)

Consumers Service Co., Muskogee.

(Controlled by Peoples Service Co.)

Grand River Gas Co., Muskogee.

(Controlled by People's Service Co.)
 Office, Barnes Building.
 Capital stock, \$200,000.
 Bonds, \$85,000; due 1925; int., 6 p. c.
 President, H. C. Blackwell.
 Manager and pur. agent, G. W. Fry.
 Wells drawn from, 11. Miles pipe line, 40.
 Annual prod., 25,000,000 c. f.
 Gas purchased, 100,000,000 c. f.
 No. dom. consumers, 1,500; factories, 75.
 Price gas, gross, dom., 30c.; industrial sliding
 scale.
 Supplies Pryor, Choteau Wagoner, Vian and
 Sallisaw, Okla; Alma, Ark.

City Gas Plant, Muskogee.

(No report.)

Cost station boiler, fuel (natural gas), 10c.
per 1,000 c. f. net.

Reserve Gas Co., Oklahoma City.

(Operated by the Doherty Organization).
Capital stock, \$1,000,000.
President, L. G. Coleman.
Vice-pres., H. L. Harrell.
Secretary, E. E. McWhiney.
This company owns the right to drill
throughout a well-defined gas belt in
Oklahoma.

Okmulgee Gas Co., Okmulgee.

Capital stock, \$100,000.
President, C. N. Payne.
Manager, J. S. Clarke.
Wells drawn from, 7. Miles pipe line, 75.
Price gas, domestic, gross, 25c. per 1,000 c. f.;
industrial, 3c. to 10c.
No. consumers, 1,300.
No. manufactories supplied, 10.
Value gas supplied, for year, \$82,000.
Supplies Okmulgee.

Watchorn Oil and Gas Co., Otoe.

Office, Herskowitz Bldg., Oklahoma City,
Okla.
Capital stock, \$100,000.
President, Robert Watchorn.
Sec'y and treas., Frank Harper.
Manager and pur. agent, Frank Harper.
Superintendent, A. D. Krow.
480 acres owned; 7,000 acres leased.
Fields in Pawnee, Kay, Carter and Creek
Counties.
Wells drawn from, 2.
Well pressures, 765 lbs.
Annual prod. gas, 21,900,000,000. c. f.
Pop. dist. supplied, 200,000.
Producers only. Sell to Oklahoma Natural
Gas Co.
Price of gas, 4c. per 1,000 c. f.

Pawhuska Oil and Gas Co., Pawhuska.

Capital stock, \$250,000.
President and treas., Thos. F. Gorman.
Secretary, S. M. Gilkey.
Manager and supt., S. M. Gilkey.
Pur. agent, O. L. Rose.
Field, Osage County.
Wells drawn from, 2 oil; 12 gas.
Pop. dist. supplied, 5,000.
No. dom. consumers, 900; industrial, 6.
Price of gas, gross, 25., 20c., 16c., 13c. and 10c.
Supplies Pawhuska.

Kay County Gas Co., Ponca City.

Capital stock, \$200,000.
Annual dividend, 5 p. c.
Bonds, \$20,000; due, 1918; int., 6 p. c.
President and mgr., Geo. L. Miller.
Sec'y and treas., J. J. McGraw.
Supt. and pur. agent, D. W. Kygar.
800 acres leased northeast of Ponca.
Wells drawn from, 5.
Miles pipe line, 40.
Annual prod., 47,244,000 c. f.
Gas purchased, 614,977,000 c. f.

Pop. dist. supplied, 9,500.
No. domestic consumers, 2,070; indus., 15.
Price gas, domestic, gross, 25c. at Ponca;
25c. at Cross; 30c. at Newkirk, Kildare
and Tonkawa per 1,000 c. f.; industrial,
25c. scale down, as amount consumed.
Value of gas supplied, for year, \$97,735.
Supplies Ponca City, Tonkawa, Newkirk,
Cross and Kildare.

Marland Refining Co., Ponca City.

Capital stock, \$1,000,000.
Annual dividend, 1 p. c.
President, J. G. McCoskey.
Gen'l supt. and pur. agent, J. B. Hinkle.
Wells drawn from, 11. Miles of pipe line, 20.
Annual prod., est. 100,000,000 c. f.
No. domestic consumers, 10.
Price of gas, gross, domestic, 25c.; industrial,
6c. per 1,000 c. f.
Value of gas supplied for year, \$2,820.97.
Supplies Whiteagle.

Peoples Fuel Supply Co., Ponca.

(Consolidated October 4, 1917, with Oklahoma
Natural Gas Co.

Le Flore County Gas and Electric Co., Poteau.

Capital stock, \$250,000.
Bonds, \$250,000; due, 1932; int. 5 p. c.
President, F. M. Fauvre.
Sec'y and treas., Howard N. Cassel.
Manager and pur. agent, Howard N. Cassel.
Acres leased, approx. 12,000, in Poteau, Okla.
Wells drawn from, 10.
Well pressures, 350 lbs.
Annual prod., 1,218,790,944 c. f.
Pop. dist. supplied, 34,000.
Number domestic consumers, 507; manufac-
tories, 14.
Price gas, gross, domestic, 30c. per 1,000 c. f.;
industrial sliding scale 4c. to 20c.
Value of gas supplied, for year, \$60,000.
Supplies Poteau and Cameron; sells to South-
western General Gas Co. of Ft. Smith,
Ark.

Quinton Oil and Gas Co., Quinton.

Manager, D. Nottage.
No. gas wells, 6.
Will supply McAlester in part, and Quinton
Smelter.

Latimer County Gas Co., Red Oak.

General office, Bartlesville, Okla.
Capital stock, \$25,000.
President, L. A. Rowland.
Manager and pur. agent, Alex. Calvert.
Wells drawn from, 1. Miles pipe line, 3.5.
Annual production, 5,500,000 c. f.
No. dom. consumers, 80; manufactories, 1.
Price gas, gross, domestic, 25c. per 1,000 c. f.;
industrial, 10c.
Value of gas supplied for year, \$1,200.
Supplies Red Oak.

Silver Crow Oil and Refining Co., Ripley.

General office, Stillwater, Okla.
Capital stock, \$50,000.
New company; drilling operations now un-
derway.
(No report, 1918.)

SPECIAL WELDED PIPE FITTINGS simplify pipe line work.
Submit your design and we shall be glad to quote.

HOPE ENGINEERING & SUPPLY COMPANY,
